

9.1 FirstNet Service and Features

Contractor's Description of Service, include required service description, features and additional features offered by Contractor: Primary rate plans, features and applications for Voice and Data services on the FirstNet Mobility Service for eligible Public Safety Entity (PSE). AT&T FirstNet Solution Subscriber Paid User plans are provided in the Subscriber Paid Plans pricing section at www.att.com/firstnetresponder Equipment such as Feature Phone, Smartphone, Aircards, Modems, and Hotspots: Please see current models matrix at: https://ebiznet.att.com/calnetinfoiii/ShowLinks.cfm?urlSectionId=1 . PSE's may also contact their AT&T Account Manager or use the Local Control Tool for additional information about equipment and pricing.
Geographic Availability: FirstNet LTE Band 14 service available within the 50 United States. FirstNet service rate plans allow PSE users to use the commercial mobility service through roaming partners world-wide.
State Associated Administrative Fee (SAAF) Charge: All services in this catalog will have a 2% fee applied..
Service Limitations and Restrictions: The Services and Equipment in this Catalog are subject to Attachment A, Acceptable Use Policy and Attachment B, Additional Information Applicable to Wireless Services . FirstNet rate plans and features on this contract may only be used by authorized PSE Users. Users must have a FirstNet specific Foundation Account Number (FAN) and Billing Account Number (BAN) to use these plans.

Catalog products and services in this category may contain Generative Artificial Intelligence (GenAI). Prior to ordering, Executive Branch State Entities shall work with CALNET Contractor AT&T Enterprises LLC to determine whether products or services to be ordered contain GenAI and comply with the requirements set forth in State Administrative Manual section 4986.9 GenAI PROCUREMENT, including but not limited to performing GenAI Risk Assessment (SIMM 5305-F).

FirstNet Mobile- Unlimited Data Plans: FirstNet Mobile Unlimited plans are not "throttled" or otherwise impeded at any data usage level. Unlimited plans do not pool. Use of First Priority™ (Dynamic Traffic Management feature) on FirstNet Mobile Unlimited Plans may not exceed 22GB a month for three consecutive months. If usage on First Priority™ exceeds this limitation, AT&T reserves the right to consult with the PSE and potentially move to a FirstNet Mobile - Pooled Plan upon PSE consent. AT&T will work with the PSE to find the best solution for users over 22GB of use of the plan's data prioritization feature or as needed. Exclusions: FirstNet Mobile- Unlimited Plans may not be used with any device or equipment that is intended to, or is used to, establish a continuous, unattended connection to the 4G LTE networks used to provide FirstNet services, including, but not limited to, automatic data feeds, mobile video transmissions, and automated machine-to-machine connections. (See Machine-to-Machine rate plans below.)

FirstNet Mobile Pooled Plans: Combined to create a "Data Pool" on a single Billing Account Number (BAN). At the end of the billing cycle, AT&T calculates the total Under Usage amounts for Agency Paid User lines in the Data Pool and the total Over Usage amounts for Agency Paid User lines in the Data Pool and then compares the two totals. If the total Under Usage amount exceeds the total Over Usage amount, the excess Under Usage is allocated among Each Agency Paid User in the Data Pool with Over Usage, resulting in per line credits on Customer's invoice equal to Each such Agency Paid User line's Data Overage charges. Any remaining excess monthly Under Usage will be forfeited. If the total Under Usage is more than zero and if the total Over Usage amount exceeds the total Under Usage amount then the Under Usage is divided by the Over Usage to create an allocation factor that is applied equally to Each Agency Paid User's Data Overage charges to determine Each such Agency Paid User's share of the total Under Usage amount, resulting in per line credits on Customer's invoice to partially offset Each such Agency Paid User's Data Overage charges. Example- Multiple users on the same BAN with Pooling plans can all share equally from the total pooled data on that account. Each user has a Pooled rate plan that contributes data to the account, that data is then pooled (shared equally) for all users on the same billing account number. Data Overage: If Customer exceeds the total amount of data in the Data Pool during a billing period, a pay-per-use rate per kilobyte ("KB") will apply.

Introduction

AT&T is at all times committed to complying with the laws and regulations governing use of the Internet, e-mail transmission and text messaging and preserving for all of its Customers the ability to use AT&T's network and the Internet without interference or harassment from other users. The AT&T Acceptable Use Policy ("AUP") is designed to help achieve these goals.

By using IP Service(s), as defined below, Customer(s) agrees to comply with this A U P and to remain responsible for its users. AT&T reserves the right to change or modify the terms of the AUP at any time, effective when posted on AT&T's web site at www.att.com/aup, provided any such modifications will not degrade the Services provided to Customer by AT&T. Certain agreed upon revisions to AT&T's standard Acceptable Use Policy are set forth in this Attachment C. Such mutually agreed upon terms shall take precedence over any conflicting terms in AT&T's standard Acceptable Use Policy as may be modified from time to time.

Scope of the AUP

The AUP applies to the AT&T services that provide (or include) access to the Internet, including hosting services (software applications and hardware), or are provided over the Internet or wireless data networks (collectively "IP Services").

Prohibited Activities

General Prohibitions:

AT&T prohibits use of the IP Services in any way that is – (i) unlawful, harmful to AT&T's network or systems, (ii) interferes with use of AT&T's network or systems or the network of any other provider that rides over the AT&T network, and causes actual or imminent harm to AT&T's network, (iii) interferes with the use or enjoyment of services received by others (except for Quality Priority and Preemption), (iv) infringes intellectual property rights, (v) results in the publication of threatening or offensive material, or (vi) constitutes Spam/E-mail/Usenet abuse, a security risk or a violation of privacy. As used in this Attachment C, the term 'interfered' shall be the result of intentional or unintentional activity by the Customer, authorized users or unauthorized use by third parties.

Failure to adhere to the rules, guidelines or agreements applicable to search engines, subscription Web services, chat areas, bulletin boards, Web pages, USENET, applications, or other services that are accessed via a link from the AT&T-branded website or from a website that contains AT&T-branded content is a violation of this AUP.

Unlawful Activities:

IP Services shall not be used in connection with any criminal, civil or administrative violation of any applicable local, state, provincial, federal, national or international law, treaty, court order, ordinance, regulation or administrative rule.

Violation of Intellectual Property Rights:

IP Service(s) shall not be used to publish, submit/receive, upload/download, post, use, copy or otherwise reproduce, transmit, re-transmit, distribute or store any content/material or to engage in any activity that infringes, misappropriates or otherwise violates the intellectual property rights or privacy or publicity rights of AT&T or any individual, group or entity, including but not limited to any rights protected by any copyright, patent, trademark laws, trade secret, trade dress, right of privacy, right of publicity, moral rights or other intellectual property right now known or later recognized by statute, judicial decision or regulation.

Threatening Material or Content:

IP Services shall not be used to host, post, transmit, or re-transmit any content or material (or to create a domain name or operate from a domain name), that harasses, or threatens the health or safety of others. In addition, for those IP Services that utilize AT&T provided web hosting, AT&T reserves the right to decline to

provide such services if the content is determined by AT&T to be obscene, indecent, hateful, malicious, racist, defamatory, fraudulent, libelous, treasonous, excessively violent or promoting the use of violence or otherwise harmful to others.

Inappropriate Interaction with Minors:

AT&T complies with all applicable laws pertaining to the protection of minors, including when appropriate, reporting cases of child exploitation to the National Center for Missing and Exploited Children. For more information about online safety, visit www.ncmec.org or www.att.com/safety.

Child Pornography:

IP Services shall not be used to publish, submit/receive, upload/download, post, use, copy or otherwise produce, transmit, distribute or store child pornography. Suspected violations of this prohibition may be reported to AT&T at the following e-mail address: cp@abuse-att.net. AT&T will report any discovered violation of this prohibition to the National Center for Missing and Exploited Children and take steps to remove child pornography (or otherwise block access to the content determined to contain child pornography) from its servers.

Spam/E-mail/Usenet Abuse:

Violation of the CAN-SPAM Act of 2003, or any other applicable law regulating e-mail services, constitutes a violation of this AUP.

Spam/E-mail or Usenet abuse is prohibited using IP Services. Examples of Spam/E-mail or Usenet abuse include but are not limited to the following activities:

- sending multiple unsolicited electronic mail messages or "mail-bombing" – to one or more recipient;
- sending unsolicited commercial e-mail, or unsolicited electronic messages directed primarily at the advertising or promotion of products or services;
- sending unsolicited electronic messages with petitions for signatures or requests for charitable donations, or sending any chain mail related materials;
- sending bulk electronic messages without identifying, within the message, a reasonable means of opting out from receiving additional messages from the sender;
- sending electronic messages, files or other transmissions that exceed contracted for capacity or that create the potential for disruption of the AT&T network or of the networks with which AT&T interconnects, by virtue of quantity, size or otherwise;
- using another site's mail server to relay mail without the express permission of that site;
- using another computer, without authorization, to send multiple e-mail messages or to retransmit e-mail messages for the purpose of misleading recipients as to the origin or to conduct any of the activities prohibited by this AUP;
- using IP addresses that the Customer does not have a right to use;
- collecting the responses from unsolicited electronic messages;
- maintaining a site that is advertised via unsolicited electronic messages, regardless of the origin of the unsolicited electronic messages;
- sending messages that are harassing or malicious, or otherwise could reasonably be predicted to interfere with another party's quiet enjoyment of the IP Services or the Internet (e.g., through language, frequency, size or otherwise);
- using distribution lists containing addresses that include those who have opted out;
- sending electronic messages that do not accurately identify the sender, the sender's return address, the e-mail address of origin, or other information contained in the subject line or header;

AT&T Proprietary. This document contains proprietary information of AT&T and is not to be disclosed to or used with third parties except in accordance with applicable agreements

- falsifying packet header, sender, or user information whether in whole or in part to mask the identity of the sender, originator or point of origin;
- using redirect links in unsolicited commercial e-mail to advertise a website or service;
- posting a message to more than ten (10) online forums or newsgroups, that could reasonably be expected to generate complaints;
- intercepting, redirecting or otherwise interfering or attempting to interfere with e-mail intended for third parties;
- knowingly deleting any author attributions, legal notices or proprietary designations or labels in a file that the user mails or sends;
- using, distributing, advertising, transmitting, or otherwise making available any software program, product, or service that is designed to violate this AUP or the AUP of any other Internet Service Provider, including, but not limited to, the facilitation of the means to spam.

Security Violations

Customers are responsible for ensuring and maintaining security of their systems and the machines that connect to and use IP Service(s), including implementation of necessary patches and operating system updates.

IP Services may not be used to interfere with, gain unauthorized access to, or otherwise violate the security of AT&T's (or another party's) server, network, network access, personal computer or control devices, software or data, or other system, or to attempt to do any of the foregoing. Examples of system or network security violations include but are not limited to:

- unauthorized monitoring, scanning or probing of network or system or any other action aimed at the unauthorized interception of data or harvesting of e-mail addresses;
- hacking, attacking, gaining access to, breaching, circumventing or testing the vulnerability of the user authentication or security of any host, network, server, personal computer, network access and control devices, software or data without express authorization of the owner of the system or network;
- impersonating others or secretly or deceptively obtaining personal information of third parties (phishing, etc.);
- using any program, file, script, command or transmission of any message or content of any kind, designed to interfere with a terminal session, the access to or use of the Internet or any other means of communication;
- distributing or using tools designed to compromise security (including but not limited to SNMP tools), including cracking tools, password guessing programs, packet sniffers or network probing tools (except in the case of authorized legitimate network security operations);
- knowingly uploading or distributing files that contain viruses, spyware, Trojan horses, worms, time bombs, cancel bots, corrupted files, root kits or any other similar software or programs that may damage the operation of another's computer, network system or other property, or be used to engage in modem or system hi-jacking;
- engaging in the transmission of pirated software;
- with respect to dial-up accounts, using any software or device designed to defeat system time-out limits or to allow Customer's account to stay logged on while Customer is not actively using the IP Services or using such account for the purpose of operating a server of any type;
- using manual or automated means to avoid any use limitations placed on the IP Services;

Catalog Attachment A – AT&T Acceptable Use Policy

- providing guidance, information or assistance with respect to causing damage or security breach to AT&T's network or systems, or to the network of any other IP Service provider;
- failure to take reasonable security precautions to help prevent violation(s) of this AUP.

Customer Responsibilities

Customers remain solely and fully responsible for the content of any material posted, hosted, downloaded/uploaded, created, accessed or transmitted using the IP Services. AT&T has no responsibility for any material created on the AT&T's network or accessible using IP Services, including content provided on third-party websites linked to the AT&T network. Such third-party website links are provided as Internet navigation tools for informational purposes only, and do not constitute in any way an endorsement by AT&T of the content(s) of such sites.

Customers are responsible for taking prompt corrective action(s) to remedy a violation of AUP and to help prevent similar future violations.

AUP Enforcement and Notice

Customer's failure to observe the guidelines set forth in this AUP may result in AT&T taking actions anywhere from a warning to a suspension or termination of Customer's IP Services. When feasible, AT&T shall provide Customer with a notice of an AUP violation via e-mail or otherwise allowing the Customer to promptly correct such violation.

AT&T reserves the right, however, to act immediately and without notice to temporarily suspend or terminate affected IP Services in response to a court order or government notice that certain conduct must be stopped, or when AT&T reasonably determines that the Customer's use of the affected IP Services : (1)exposes AT&T to sanctions, prosecution, civil action or any other liability; (2) causes harm, including through interference, to the integrity or normal operations of AT&T's network or networks with which AT&T is interconnected; (3) interfere with another AT&T Customer's use of IP Services or the Internet, except for QPP; (4) violates any applicable law, rule or regulation; or (5) otherwise presents an imminent risk of harm to AT&T or AT&T Customers.

AT&T's single points of contact for information on any service suspension/restoration shall be Mark Roese/Ken Todd.

Copyright Infringement & Digital Millennium Copyright Act

AT&T respects the intellectual property rights of others. The Digital Millennium Copyright Act of 1998 (the "DMCA" found at 17 U.S.C. § 512) provides that owners of copyrighted works who believe that their rights under U.S. copyright law have been infringed may report alleged infringements to service providers like AT&T. In accordance with the DMCA and other applicable laws, AT&T maintains a policy that provides for the termination of IP Services, under appropriate circumstances, if Customers are found to be a repeat infringer and/or if Customers' IP Services are used repeatedly for infringement (the "Repeat Infringer Policy"). AT&T may terminate IP Services at any time with or without notice to Customers.

AT&T has no obligation to investigate possible copyright infringements with respect to materials transmitted by Customer or any other users of the IP Services. However, AT&T will process valid notifications of claimed infringement under the DMCA, and continued receipt of infringement notifications for Customer's account will be used as a factor in determining whether Customer is a repeat infringer. In addition, AT&T may voluntarily participate, on terms acceptable to AT&T, in copyright alert and graduated response programs.

Incident Reporting

Any complaints (other than claims of copyright infringement) regarding violation of this AUP by an AT&T Customer (or its user) should be directed to abuse@att.net. Where possible, include details that would assist AT&T in investigating and resolving such complaint (e.g., expanded headers, IP address(s), a copy of the offending transmission and any log files).

AT&T Proprietary. This document contains proprietary information of AT&T and is not to be disclosed to or used with third parties except in accordance with applicable agreements

DMCA Copyright Notifications:

Pursuant to 17 U.S.C. §§ 512(b)–(d), a copyright holder may send AT&T a valid notification of claimed copyright infringement under the DMCA. For further information regarding such notifications, see <https://www.att.com/legal/terms/dmca.html>. AT&T's designated agent to receive notifications of claimed infringement as described in DMCA subsection 512(c)(3) is:

Manager of Security & Copyright Infringement
1800 Perimeter Park Drive, Suite 100
Morrisville, NC 27560
E-mail: copyright@att.com

Due to the substantial volume of notifications of claimed infringement that AT&T receives and processes, we are unable to accept notices of alleged copyright infringement via this designated agent or email address other than notifications of claimed infringement sent pursuant to Sections 512(b)–(d).

AT&T also provides transitory digital network communications services, pursuant to 17 U.S.C. § 512(a). In connection with such services, AT&T provides an online form that copyright holders should use to send notifications related to alleged copyright infringement by its users based on the standards of the Automated Copyright Notice System (ANCS). Copyright holders should use this online form to submit complaints related to alleged peer-to-peer file sharing (i.e. sharing media files via peer-to-peer networking technology), or other forms of copyright notice other than those sent pursuant to Sections 512(b)–(d) of the DMCA ("ISP Conduit Notices"). By submitting complaints using this online form, we are able to more efficiently manage and process ISP Conduit Notices. Due to the substantial volume of copyright notices that AT&T receives, we are unable to guarantee processing of ISP Conduit Notices that are sent by other means. Copyright holders can access AT&T's online form at att.com/p2pnotices. Please note that copyright holders must complete all fields in the online form before submitting.

Contact Information:

Any notification that AT&T sends to its Customers pursuant to this AUP will be sent via e-mail to the e-mail address on file with AT&T, or may be in writing to Customer's address of record. It is Customer's responsibility to promptly notify AT&T of any change of contact information.

Amendment:

This AUP may be amended by the mutual written agreement of the parties.

Catalog Attachment B - Additional Information Applicable to Wireless Services

Catalog Attachment B - Additional Information Applicable to Wireless Services

The following Additional Information Applicable to Wireless Services are applicable to all wireless services offered by AT&T, including, but not limited to, the AT&T FirstNet Solution. For purposes of this Attachment B, the term "Customer" as set forth below shall mean any Public Safety Entity purchasing FirstNet Services under this Contract. Similarly, the term "CRU" shall mean "Agency Paid User", and the term "Rate Plan" refers to rate plans offered as part of the AT&T FirstNet Solution. As used herein, "we," "us" or "our" refers to AT&T and "you" or "your", "my" or "I" refers to the person or entity that is the customer of record and/or its Corporate Responsibility Users ("CRUs"), as appropriate.

To the extent that this Attachment B conflicts with other provisions in Appendix A – Statement of Work, the terms set forth in Appendix A – Statement of Work shall take precedence. The Service Guide may be modified by the mutual written consent of the parties.

1. Geographic Coverage and Availability

The Services are available for purchase in AT&T Markets, as may be modified by AT&T from time to time. AT&T Mobile Services will be available only within the operating range of each Carrier's wireless system in AT&T Markets and where roaming is available through other carriers (each, a "Service Area"). Gaps in service occur within the Service Areas shown on coverage maps, which, by their nature, are only approximations of actual coverage; therefore, AT&T does not guarantee Customer uninterrupted AT&T Mobile Services.

2. Availability Limitations

Unless prohibited by law, Service may be interrupted, delayed or otherwise limited for a variety of reasons, including environmental conditions, equipment modifications and repairs, and problems with the facilities of interconnecting carriers.

3. Charges: Wireless Data Service and Messaging Services

DATA TRANSPORT OR USAGE IS CALCULATED IN FULL-KILOBYTE INCREMENTS, AND ACTUAL TRANSPORT OR USAGE IS ROUNDED UP TO THE NEXT FULL-KILOBYTE INCREMENT AT THE END OF EACH DATA SESSION FOR BILLING PURPOSES. AT&T CALCULATES A FULL KILOBYTE OF DATA TRANSPORT/USAGE FOR EVERY FRACTION OF THE LAST KILOBYTE OF DATA TRANSPORT/USAGE USED ON EACH DATA SESSION. TRANSPORT OR USAGE IS BILLED EITHER BY THE KILOBYTE ("KB") OR MEGABYTE ("MB"). IF BILLED BY MB, THE FULL KBs CALCULATED FOR EACH DATA SESSION DURING THE BILLING PERIOD ARE TOTALED AND ROUNDED UP TO NEXT FULL MB INCREMENT TO DETERMINE BILLING. IF BILLED BY KB, THE FULL KBs CALCULATED FOR EACH DATA SESSION DURING THE BILLING PERIOD ARE TOTALED TO DETERMINE BILLING. NETWORK OVERHEAD, SOFTWARE UPDATE REQUESTS, EMAIL NOTIFICATIONS AND RESEND REQUESTS CAUSED BY NETWORK ERRORS CAN INCREASE MEASURED KILOBYTES. DATA TRANSPORT/USAGE OCCURS WHENEVER CUSTOMER'S DEVICE IS CONNECTED TO THE AT&T WIRELESS NETWORK AND IS ENGAGED IN ANY DATA TRANSMISSION. Utilizing compression solutions may or may not impact the number of kilobytes calculated for data transport. For Wireless Data Service that permits Voice Service usage at pay per use rates, airtime and other measured usage will be billed in full minute increments and rounded up to the next full minute increment at the end of each call. Customer is responsible for all Wireless Data Service usage sent through the AT&T wireless network and associated with Equipment regardless of whether the Equipment actually receives the information. Network overhead, software update requests, and resend requests caused by network errors can increase measured kilobytes. If Customer or a CRU chooses to connect Equipment to a PC for use as a wireless modem, standard Wireless Data Service charges will apply in accordance with the corresponding Plan. Wireless Data Service usage is compiled as often as once per hour or only once every 24 hours. AT&T's system will then create a billing record representing (a) the Wireless Data Service usage for each data gateway or service accessed (e.g. WAP, RIM) while on the AT&T wireless network; (b) the usage for each Carrier's domestic network; and (c) the Wireless Data Service usage for each international network. In some situations, billing for Wireless Data Service usage may be delayed; any delayed usage will create additional billing records for the actual day of the usage. Usage on networks not owned by AT&T is limited as provided in Customer's Rate Plan. Unless designated for International or Canada use, Rate Plan prices and included use apply only to access and use of AT&T network technologies on AT&T's wireless network and the wireless networks of other companies with which AT&T has a contractual relationship within the United States and its territories, excluding areas within the Gulf of Mexico.

4. Activation and Other Processes: Services

Customer will follow the policies and processes established to purchase, activate, migrate, terminate, or otherwise modify a Service including, without limitation, AT&T Mobile Services and Equipment, as may be modified from time to time by the mutual consent of the parties. Customer authorizes AT&T to provide information about and to make changes to Customer's account, including adding new Service, upon the direction of any individual representative of Customer able to provide information AT&T deems sufficient to identify Customer. Any order for Service and/or Equipment that Customer's representative submits to AT&T will be binding upon Customer.

Catalog Attachment B - Additional Information Applicable to Wireless Services

pursuant to the terms and conditions of Customer's Contract. AT&T may reasonably rely on the authority of any person who executes an order on Customer's behalf. Customer consents to the use by AT&T or its authorized agents of regular mail, predictive or autodialing equipment, email, text messaging, facsimile or other reasonable means to contact Customer and/or its CRUs to advise Customer and/or its CRUs about AT&T's Services or other matters AT&T believes may be of interest to Customer and its CRUs. In any event, AT&T reserves the right to contact Customer and/or its CRUs by any means regarding customer service-related notifications, or other such information.

5. Use of the Services: Fraud

Customer is responsible for all charges incurred until Customer or its CRU reports the theft or loss to AT&T except as otherwise provided by law, and Customer remains responsible for complying with all other obligations under its Contract including, but not limited to , paying the Monthly Service Charge while the equipment is suspended.

6. Use of the Services: Customer Network Equipment Restrictions

No amplifier, enhancer, repeater or other device or system may be used or installed on the AT&T wireless network or AT&T's wireless frequencies without AT&T's prior written approval.

7. Use of the Services: Telephone Numbers and Portability

AT&T may change the Number assigned to Equipment with reasonable prior notice for commercial reasons, such as fraud prevention, regulatory requirements and area code changes. AT&T will comply with any FCC-issued regulations that specifically require AT&T to allow its wireless Customers to retain their assigned Number upon switching wireless service to another carrier. For purposes of FCC-issued regulations, AT&T will treat the Customer as the Customer of record with respect to Equipment for CRUs.

8. Location-Based Services

AT&T collects information about the approximate location of Equipment in relation to AT&T's cell towers and the Global Positioning System ("GPS"). AT&T uses that information, as well as other usage and performance information also obtained from AT&T's network and the Equipment, to provide Voice Services and Wireless Data Services and to maintain and improve AT&T's network and the quality of customers' wireless experience. AT&T may also use location information to create aggregate data from which the CRUs' personally identifiable information has been removed or obscured. Such aggregate data may be used for a variety of purposes such as scientific and marketing research and services such as vehicle traffic volume monitoring. Any such data collected shall be treated consistent with Section 17 of Appendix A- Statement of Work. It is Customer's responsibility to notify all CRUs on Customer's account that AT&T may collect and use location information from their Equipment. The Equipment is also capable of purchasing and using optional goods, content and services (at Customer's request or the request of a CRU on Customer's account) offered by AT&T or third parties that make use of the Equipment's location information ("Location-Based Services"). Customer should review, and will advise all of its CRUs to read, the Sales Information and the associated privacy policy for each Location-Based Service to learn how the location information will be used and protected. ATT shall comply with the contract requirements pertaining to news releases, endorsements, advertising and social media content that utilize Customer data.

9. AT&T 411 Info

AT&T's directory assistance service (411) may use the location of Equipment to deliver relevant customized 411 information based upon an End User's request for a listing or other 411 services. Customer understands, and will advise all of its CRUs, that by using this directory assistance service, the CRU is consenting to AT&T's use the CRU's location information for such purpose. This location information may be disclosed to a third party to perform the directory assistance service and for no other purpose. Such location information will be retained only as long as is necessary to provide the relevant customized 411 information and will be discarded after such use.

10. AT&T Wi-Fi Services

AT&T Wi-Fi Basic Service is available at no additional charge to wireless customers with select Wi-Fi capable devices and a qualified Wireless Data Service Plan. Other restrictions may apply.

11. Devices and Content

11.1 Devices

Catalog Attachment B - Additional Information Applicable to Wireless Services

AT&T wireless service(s) may be used with: (a) Equipment that contains a SIM that is assigned to your account ("Device") and/or, (b) Equipment that is designed and purchased for use exclusively on AT&T's network. Your Device must be compatible with, and not interfere with, our Services and must comply with all applicable laws, rules, and regulations. We may periodically program your Device remotely with system settings for roaming service, to direct your Device to use network services most appropriate for your typical usage, and other features that cannot be changed manually. Some device manufacturers will no longer pre-load certain applications into the device memory. As a result, AT&T may remotely pre-load certain applications to your device at activation and periodically update those applications. You can delete any applications that AT&T remotely pre-loads on your device.

You agree that you won't make any modifications to your Equipment or its programming to enable such Device to operate on any other system. AT&T may, at its sole and absolute discretion, modify the programming to enable the operation of such Device on other systems.

If you bought a Device from AT&T, it may have been programmed with a SIM lock which will prevent it from operating with other compatible wireless telephone carriers' services. If you wish to use this Device with the service of another wireless telephone carrier, you must enter a numeric unlock code to unlock the phone. AT&T will provide the Unlock Code upon request, provided that you meet certain criteria including, but not limited to the following: (a) you have paid for your Device in full; (b) your account has been active for at least sixty days and is in good standing (i.e. it has no past due amount or unpaid balance owed AT&T); (c) you have fulfilled your service commitment by expiration of any contractual term, upgrading to a new Device under AT&T's standard or early upgrade policies, or payment of any applicable Early Termination Fee ("ETF"); (d) your Device has not been reported lost or stolen; and (e) AT&T has the Unlock Code or can reasonably obtain it from the manufacturer. AT&T will unlock a maximum of five phones per account, per year. For Devices sold with a plan that is paid in advance ("Prepaid Plan"), AT&T will provide you with the Unlock Code upon request if you provide a detailed receipt or other proof of purchase of the phone and AT&T has the Unlock Code or can reasonably obtain it from the manufacturer. For further details on eligibility requirements and for assistance on obtaining the Unlock Code for your handset, please contact a FirstNet account representative.

You are solely responsible for complying with U.S. Export Control laws and regulations and the import laws and regulations of foreign countries when traveling internationally with your Device.

11.2 Availability of Service

AT&T does not guarantee availability of wireless network. Services may be subject to certain Device and compatibility/limitations including memory, storage, network availability, coverage, accessibility and data conversion limitations. Services (including without limitation, eligibility requirements, plans, pricing, features and/or service areas) are subject to change without notice.

11.3 Third Party Information, Content, And Applications

Certain information, applications, or other content is provided by independently owned and operated content providers or service providers who are subject to change at any time without notice.

AT&T IS NOT A PUBLISHER OF THIRD-PARTY INFORMATION, APPLICATIONS, OR OTHER CONTENT AND IS NOT RESPONSIBLE FOR ANY OPINIONS, ADVICE, STATEMENTS, OR OTHER INFORMATION, SERVICES OR GOODS PROVIDED BY THIRD PARTIES.

Third-party content or service providers may impose additional charges. Policies regarding intellectual property, privacy and other policies or terms of use may differ among AT&T's content or service providers and you are bound by such policies or terms when you visit their respective sites or use their services. It is your responsibility to read the rules or service Contracts of each content provider or service provider.

Any information you involuntarily or voluntarily provide to third parties is governed by their policies or terms. The accuracy, appropriateness, content, completeness, timeliness, usefulness, security, safety, merchantability, fitness for a particular purpose, transmission or correct sequencing of any application, information or downloaded data is not guaranteed or warranted by AT&T or any content providers or other third party. Delays or omissions may occur. Neither AT&T nor its content providers, service providers or other third parties shall be liable to you for any loss or injury arising out of or caused, in whole or in part, by your use of any information, application or content, or any information, application, or other content acquired through the Service.

11.4 Mobile Content

You understand that Devices can be used to acquire or purchase goods, content, and services (including subscription plans) like ring tones, graphics, games, applications and news alerts from AT&T or other companies ("Content"). You understand that you are responsible for all authorized charges associated with such

Catalog Attachment B - Additional Information Applicable to Wireless Services

Content from any Device assigned to your account, that these charges will appear on your bill (including charges on behalf of other companies), and that such purchases can be restricted by using parental controls or similar features available from an AT&T salesperson, or by calling AT&T.

11.5 Responsibility for Mobile Purchases

Except as otherwise provided in these terms of service, if your Device is used by others to make Content purchases, you are responsible for all such purchases.

12. Use and Limitations of Service

12.1 Security

AT&T DOES NOT GUARANTEE SECURITY. Data encryption is available with some, but not all, Services sold by AT&T. If you use your Device to access company email or information, it is your responsibility to ensure your use complies with your company's internal IT and security procedures.

12.2 Service Outside AT&T's Wireless Network (Roaming)

Services originated or received while outside your plan's included coverage area are subject to roaming charges. International roaming rates apply for any voice, messaging or data usage incurred outside the coverage area set forth in your Rate Plan. Use of Services when roaming is dependent upon roaming carrier's support of applicable network technology and functionality. Display on your Device may not indicate whether you will incur roaming charges. Check with roaming carriers individually for support and coverage details.

12.2.1 International Services

Certain eligibility restrictions apply which may be based on service tenure, payment history and/or credit. Rates are subject to change. For countries, rates and additional details, see att.com/global.

12.2.1.1 International Long Distance

International rates apply for calls made and messages sent from the U.S., Puerto Rico and U.S.V.I. to another country other than those specified in your Rate Plan. Calling or messaging to some countries may not be available. Calls to wireless numbers and numbers for special services, such as Premium Rated Services, may cost more than calls to wireline numbers. If a customer calls an overseas wireline number and the call is forwarded to a wireless number, the customer will be charged for a call terminated to a wireless number. International Long Distance calling rates are charged per minute and apply throughout the same footprint in which the customer's airtime package minutes apply.

12.2.1.2 International Long Distance Text, Picture & Video Messaging

Additional charges apply for premium messages and content. Messages over 300 KBs are billed an additional 50¢/message. For a complete list of countries, please visit att.com/text2world.

13. Voice Services

13.1 Voicemail

You are solely responsible for establishing and maintaining security passwords to protect against unauthorized use of your voicemail service. For information as to the number of voicemail messages you can store, when voicemail messages will be deleted, and other voicemail features, see att.com/wirelessvoicemail. We reserve the right to change the number of voicemails you can store, the length you can store voicemail messages, when we delete voicemail messages, and other voicemail features without notice. We may deactivate your voicemail service if you do not initialize it within a reasonable period after activation. We will reactivate the service upon your request. See att.com/global for information about using voicemail internationally.

13.2 Voicemail-To-Text ("VMTT")

AT&T is not responsible, for: 1) errors in the conversion of or its inability to transcribe voicemail messages to text/email; 2) lost or misdirected messages; or, 3) content that is unlawful, harmful, threatening, abusive, obscene, tortious, or otherwise objectionable.

We do not filter, edit or control voice, text, or email messages, or guarantee the security of messages. We can interrupt, restrict or terminate VMTT without notice, if your use of VMTT adversely impacts AT&T's network, for example that could occur from abnormal calling patterns or an unusually large number of repeated calls and messages; or if your use is otherwise abusive, fraudulent, or does not comply with the law.

Catalog Attachment B - Additional Information Applicable to Wireless Services

You are solely responsible for and will comply with all applicable laws as to the content of any text messages or emails you receive from VMTT that you forward or include in a reply to any other person. You authorize AT&T or a third party working on AT&T's behalf to listen to, and transcribe all or part of a voicemail message and to convert such voicemail message into text/email, and to use voicemail messages and transcriptions to enhance, train and improve AT&T's speech recognition and transcription services, software and equipment.

Charges for VMTT include the conversion of the voicemail message and the text message sent to your wireless device. Additional charges, however, may apply to receiving email on your wireless device from VMTT, as well as, replying to or forwarding VMTT messages via SMS (text) or email, depending on your plan.

SMS (text messaging) blocking is incompatible with VMTT. If you are traveling outside the Service Area set forth in your Rate Plan, you will incur international data charges for emails received from VMTT, as well as, charges for emails you respond to or forward from VMTT, unless you have an international data plan and the usage falls within the plan's usage limits.

Transcription times cannot be guaranteed. Customers purchasing email delivery are responsible for providing a correct email address and updating the email address when changes to the email account are made.

If you choose SMS (text) delivery, VMTT only converts the first 480 characters of a voicemail message into text and you will receive up to three text messages of a transcribed message. The transcription, therefore, may not include the entire voicemail message with SMS delivery. Adding VMTT will create a new voicemail box and all messages and greetings will be deleted from your current voicemail box.

14. Data and Messaging Services

14.1 Data and Messaging Plans

AT&T provides wireless data and messaging Services, including but not limited to, features that may be used with Data Services and wireless content and applications ("Data Services"). The absolute capacity of the wireless data network is limited; consequently Data Services may only be used for permitted activities. Pricing and data allowances for Data Services are device dependent and based on the capabilities and capacity of each Device.

For Data Services with a monthly megabyte (MB) or gigabyte (GB) data allowance, once you exceed your monthly data allowance you will be automatically charged for overage as specified in the applicable rate plan. All data allowances, including overages, must be used in the billing period in which the allowance is provided. Unused data allowances will not roll over to subsequent billing periods.

AT&T data plans are designed for use with only one of the following distinct Device types: (1) Smartphones, (2) basic and Quick Messaging phones, (3) tablets, (4) LaptopConnect cards, (5) stand-alone Mobile Hotspot devices, and (6) AT&T Home Bases. A data plan designated for one type of device may not be used with another type of device. For example, a data plan designated for use with a basic phone or a Smartphone may not be used with a LaptopConnect card, tablet, or stand-alone Mobile Hotspot device, by tethering devices together, by SIM card transfer, or any other means. A data tethering plan, however, may be purchased for an additional fee to enable tethering on a compatible device.

14.2 Calculation of Data Usage/Billing

DATA TRANSPORT/USAGE OCCURS WHENEVER YOUR DEVICE IS CONNECTED TO OUR NETWORK AND IS ENGAGED IN ANY DATA TRANSMISSION, INCLUDING BUT NOT LIMITED TO: (i) SENDING OR RECEIVING EMAIL, DOCUMENTS, OR OTHER CONTENT, (ii) ACCESSING WEBSITES, OR (iii) DOWNLOADING AND USING APPLICATIONS. SOME APPLICATIONS, CONTENT, PROGRAMS, AND SOFTWARE THAT YOU DOWNLOAD OR THAT COMES PRE-LOADED ON YOUR DEVICE AUTOMATICALLY AND REGULARLY SEND AND RECEIVE DATA TRANSMISSIONS IN ORDER TO FUNCTION PROPERLY, WITHOUT YOU AFFIRMATIVELY INITIATING THE REQUEST AND WITHOUT YOUR KNOWLEDGE. FOR EXAMPLE, APPLICATIONS THAT PROVIDE REAL-TIME INFORMATION AND LOCATION-BASED APPLICATIONS CONNECT TO OUR NETWORK, AND SEND AND RECEIVE UPDATED INFORMATION SO THAT IT IS AVAILABLE TO YOU WHEN YOU WANT TO ACCESS IT. IN ADDITION, ANY ADVERTISEMENTS OR ADVERTISER-RELATED MESSAGES OR DATA DELIVERED TO YOUR DEVICE, EVEN IF DELIVERED TO AN APPLICATION, AS WELL AS ANY MESSAGES OR CONTENT THAT INITIATE IN RESPONSE TO AN ADVERTISEMENT, WILL COUNT TOWARD YOUR DATA USAGE. YOU WILL BE BILLED FOR ALL DATA TRANSPORT AND USAGE WHEN YOUR DEVICE IS CONNECTED TO OUR NETWORK, INCLUDING THAT WHICH YOU AFFIRMATIVELY INITIATE OR THAT WHICH RUNS AUTOMATICALLY IN THE BACKGROUND WITHOUT YOUR KNOWLEDGE, AND WHETHER SUCCESSFUL OR NOT. A DATA SESSION INITIATED ON THE AT&T NETWORK WILL CONTINUE ITS CONNECTION OVER THE AT&T NETWORK UNTIL THE DATA TRANSMISSION IS CONCLUDED, EVEN WHEN YOU CONNECT TO A WI-FI NETWORK DURING THE TRANSMISSION.

Catalog Attachment B - Additional Information Applicable to Wireless Services

Prices and included use apply to access and use on AT&T's wireless network and the wireless networks of other companies with which AT&T has a contractual relationship within the Service Area specified in your Rate Plan.

Usage on networks not owned by AT&T is limited as provided in your Rate Plan. Charges will be based on the location of the site receiving and transmitting service and not the location of the subscriber. Mobile Broadband and 4G access requires a compatible device.

In order to assess your usage during an applicable billing period, you may obtain approximate usage information by calling customer service or using one of our automated systems.

14.3 Text, Messaging And Picture/Video Messaging

Messages are limited to 160 characters per message. Premium text and picture/video messages are charged at their stated rates. Standard rates apply to all incoming messages when in the U.S. Different, non-standard per message charges apply to international messages sent from the U.S.

Text, Picture, and Video messages are charged when sent or received, whether read or unread, solicited or unsolicited. AT&T does not guarantee delivery of messages. Text, Picture, and Video messages, including downloaded content, not delivered within 3 days will be deleted. AT&T reserves the right to change this delivery period as needed without notification. You are charged for each part of messages that are delivered to you in multiple parts. Picture/Video Messaging, data plan, and Text Messaging may need to be provisioned on an account in order to use Picture/Video Messaging. Some elements of Picture/Video messages may not be accessible, viewable, or heard due to limitations on certain wireless phones, PCs, or e-mail. AT&T reserves the right to change the Picture/Video message size limit at any time without notification. Picture/Video Messaging pricing is for domestic messages only. When a single message is sent to multiple recipients, the sender is charged for one message for each recipient and each recipient is charged for the message received. Text message notifications may be sent to non-Picture/Video Messaging subscribers if they subscribe to Text Messaging. You may receive unsolicited messages from third parties as a result of visiting Internet sites, and a per-message charge may apply whether the message is read or unread, solicited or unsolicited. You agree you will not use our messaging services to send messages that contain advertising or a commercial solicitation to any person or entity without their consent. You will have the burden of proving consent with clear and convincing evidence if a person or entity complains you did not obtain their consent. Consent cannot be evidenced by third party lists you purchased or obtained. You further agree you will not use our messaging service to send messages that: (a) are bulk messages (b) are automatically generated; (c) can disrupt AT&T's network; (d) harass or threaten another person (e) interfere with another customer's use or enjoyment of AT&T's Services; (f) generate significant or serious customer complaints, (g) that falsify or mask the sender/originator of the message; or (h) violate any law or regulation. AT&T reserves the right, but is not obligated, to deny, disconnect, suspend, modify and/or terminate your messaging service or messaging services with any associated account(s), or to deny, disconnect, suspend, modify and/or terminate the account(s), without notice, as to anyone using messaging services in any manner that is prohibited. Our failure to take any action in the event of a violation shall not be construed as a waiver of the right to enforce such terms, conditions, or policies. Advertising and commercial solicitations do not include messaging that: (a) facilitates, completes, or confirms a commercial transaction where the recipient of such message has previously agreed to enter into with the sender of such message; or (b) provides account information, service or product information, warranty information, product recall information, or safety or security information with respect to a commercial product or service used or purchased by the recipient of such message.

14.4 Mobile Email

Requires e-mail account with compatible internet service provider and a downloaded or preloaded e-mail application for the wireless device. Access and use of Mobile Email is billed by total volume of data sent and received (in kilobytes) in accordance with your data plan. E-mail attachments can not be sent, downloaded, read, or forwarded on the mobile device. Only a paper clip icon appears indicating an attachment. You must view attachments from your PC. Upgrades to the application may be required in order to continue to use the Service. Wireless data usage charges will apply for downloading the application and any upgrades.

14.5 Mobile Video

Compatible Phone and eligible data plan required. Service is not available outside AT&T's Mobile Broadband and 4G coverage area. Premium content is charged at stated monthly subscription rates or at stated pay per view rates. Content rotates and is subject to withdrawal. Mobile Video is for individual use, not for resale, commercial purposes or public broadcast. Content can only be displayed on the device screen. No content may be captured, downloaded, forwarded, duplicated, stored, or transmitted. The content owner reserves and owns all content rights. All trademarks, service marks, logos, and copyrights not owned by AT&T are the property of their owners. Some Mobile Video content is intended for mature audiences and may be inappropriate for younger viewers. Parental guidance suggested. Use Parental Controls to restrict access to

15. Emergency alerts

Catalog Attachment B - Additional Information Applicable to Wireless Services

AT&T has chosen to offer wireless emergency alerts within portions of its service area, as defined by the terms and conditions of its Contract, on wireless emergency alert capable devices.

There is no additional charge for these wireless emergency alerts. Wireless emergency alerts may not be available on all devices or in the entire service area, or if a subscriber is outside of the AT&T service area. In areas in which the emergency alerts are transmitted, such alerts may not be received by a subscriber or user of AT&T's wireless service even though the subscriber has a device capable of receiving them.

For details on the availability of this service and wireless emergency alert capable devices, please ask a sales representative, or go to att.com and click the Wireless Emergency Alerts link. This notice is required by FCC Rule 47 C.F.R. § 10.250 (Commercial Mobile Alert Service).

In transmitting emergency alerts pursuant to federal law, AT&T, including its officers, directors, employees, vendors, and agents, shall not be liable to any subscriber to, or user of, AT&T's wireless service or equipment for any act or omission related to or any harm resulting from the transmission of, or the failure to transmit, an emergency alert; or the release to a government entity or agency, public safety, fire service, law enforcement official, emergency medical service, or emergency facility of subscriber information used in connection with delivering an emergency alert.
