### 30.2.8 Additional Broadband with Internet Services and Features

**Contractor’s Description of Service:**

Additional broadband internet services via LEO satellite. This service will assist the State in deploying LEO satellite connectivity in the “hard to reach” areas where landline facilities are not available.

**Geographic Availability:**

Statewide

State Associated Administrative Fee Charge - Services identified below with “Yes” in the SAAF Applied column will have a 2.5% fee applied to the Monthly Recurring Charge or usage. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer’s invoice.

### 30.4 OTHER SERVICES

#### 30.4.1 Hourly Rates for Services

##### Contractor’s Description of Service:

[AT&T wiring services support the services covered by Contract for all Customer occupied buildings where services under this Contract are being offered. AT&T wiring services includes wire/cable related activities required to extend the demarcation point to the Customer defined termination location or cross-connect point from the Contractor’s MPOE. AT&T wiring services shall include the necessary wire/cable, connectors, jumpers, panel, and jack. AT&T wiring services shall also include associated trouble shooting, testing and labeling. The Contractor shall not be required to complete wiring from the MPOE to the location if:

1. The wire/cable pathway is blocked, and cannot be cleared without significant effort or damage to the Customer site;
2. The wire/cable pathway is in an asbestos or other environment hazardous to the Contractor's personnel, or where such work would be hazardous to the public or to the Customer's staff; or,
3. Upon written release provided by either the Customer or by the CALNET Program.]
