Catalog products and services in this category may contain Generative Artificial Intelligence (GenAI). Prior to ordering, Executive Branch State Entities shall work with CALNET Contractor AT&T Enterprises, LLC to determine whether products or services to be ordered contain GenAI and comply with the requirements set forth in State Administrative Manual section 4986.9 GenAI PROCUREMENT, including but not limited to performing GenAI Risk Assessment (SIMM 5305-F).

Table 16.2.2.2.5 – Long Distance Network Access Transport

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: Provide dedicated DS1, DS3 and ISDN Private Rate Interface (PRI) access transport service for use with the LD service deployed for CALNET Legacy 4. This service shall only be utilized in conjunction with the Contractor's Long Distance service. Within California, provide dedicated network access transport services statewide in all Incumbent Local Exchange Carrier (ILEC) territories open to competition as defined by the California Public Utilities Commission (CPUC) where services are available either through Bidder owned facilities or through resale of approved Incumbent Local Exchange Carrier services. Outside of California provide dedicated network access transport services within the contiguous 48 states where facilities are available. Geographic Availability: AT&T Dedicated network transport service is available throughout the United States, in all Incumbent Local Exchange Carrier (ILEC) territories open to competition as defined by the governing Public Utilities Commission where facilities are available either through AT&T-owned facilities or through resale of Incumbent Local Exchange Carrier facilities. Service Limitations and Restrictions: Dedicated network transport services may only be used in conjunction with AT&T Services. State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Table 16.2.3.5 – Long Distance Domestic Calling

Contractor's Description of Service, include required service description, features and additional features offered by Contractor: Outbound long distance services provided through AT&T's SDN (Software Defined Network) OneNet platform. The SDN platform supports all inter-LATA, Intra-State, Inter-State, and International calling requirements. SDN is a custom network service that will provides a virtually private network with either dedicated (DS1, DS3, ISDN PRI) or switched (Dial 1) access.
Geographic Availability: AT&T Dedicated network transport service is available throughout the United States, in all Incumbent Local Exchange Carrier (ILEC) territories open to competition as defined by the governing Public Utilities Commission where facilities are available either through AT&T-owned facilities or through resale of Incumbent Local Exchange Carrier facilities. For switched access requires a Primary Interexchange Carrier Code (PIC Code) be applied/supported by the Incumbent Local Exchange Carrier (ILEC).
Service Limitations and Restrictions: None.
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Table 16.2.3.5 - Long Distance Domestic Calling

20	Virtual Office Connection	SMO84	Call	SDN Virtual Office Connection (NRA IV) allows customers to access their SDN networks from a predetermined location.		\$400.00	\$0.00	\$0.00	No	Required
21	Enhanced Fraud Protection – NetProtect® Plus	NPPLUS	Telephone System	NetPROTECT® – Plus is available to all AT&T customers who have their own premises equipment (with dedicated LD access) and provides a maximum liability threshold of \$2000 prior to AT&T notification, PLUS provides extra protection for AT&T Business Long Distance customers and detects possible remote toll fraud five to seven times faster than normal Fraud Prevention activities. To accomplish this, the customer must provide AT&T with all their billable telephone numbers, as well as three contacts, one of which must be available 24 hours a day, seven days a week. AT&T notification, for		\$100.00	\$10.00	\$0.00	No	Required

Table 16.2.3.5 - Long Distance Domestic Calling										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
				PLUS, is defined as a telephone call, by AT&T Security, to one of the three designated contacts to provide notice of suspected toll fraud. PLUS customers detecting remote toll fraud, prior to AT&T, can reduce their liability by 50%. The customer must notify AT&T Security and, within 90 days of the fraud incident, send written notification of the means of fraud detection and any changes made to the equipment to stop the remote toll fraud						
22	Fully Enhanced Fraud Protection – Net PROTECT® Premium	NPPREM	Telephone System	NetPROTECT® – Premium provides \$0 liability prior to AT&T notification and for two hours after notification. Premium provides maximum protection for AT&T Business Long Distance customers and is the fastest AT&T NetPROTECT service for detection and notification of possible remote toll fraud. The		\$300.00	\$200.00	\$0.00	No	Required

				customer must provide AT&T with all the information required for Plus service. AT&T notification, for Premium, is defined as a telephone call, by AT&T Security, to one of the three designated contacts to provide notice of suspected toll fraud.						
	Switched Digital Services-Data Transmission (SDDN)	See Below		AT&T's Software Defined Data Network (SDDN) allows end-to-end digital transmission at speeds of 56 kbps or 64 kbps and is available in two modes: static and dynamic. In the Static Mode, access to the network is full time at 56 kbps. In the Dynamic Mode, CALNET II users may initiate 56 kbps calls on a call-by-call basis via the use of a feature code. Dynamic Mode requires a digital PBX. With the use of ISDN utilizing a PRI, CALNET II users will be able to transmit data at 64 kbps in either Static or Dynamic Mode.						

Table 16.2.3.5 - Long Distance Domestic Calling

27	Subnetwork Screen Groups	SMOSG	Screen Group	Allows the creation of subnetwork call screening groups	Screening Groups contain numbers that members of Caller Groups can or cannot call. There are two types of Screening Groups: 1. Allowed Screening Groups: Contain numbers that members of a Caller Group are allowed to call. Implicit in this statement is that all other numbers dialed would be blocked. An example of an allowed Screening Group is a list consisting of area codes on the East Coast. All other calls would be blocked. 2. Blocked Screening Groups: Contain numbers that members of a caller group are not allowed to call. Implicit in this statement is that all other calls would be allowed to route. An	\$200.00	\$50.000	\$0.00	No	Required

Table 16.2.3.5 - Long Distance Domestic Calling

					Group to identify whether callers may dial on-net, off-net and international calls. There are two types of Caller Groups: 1. Station Groups: Contain originating numbers. All on-net locations that will be originating SDN traffic must be associated with a Station Group. When a call originates from a location, the customer's database will determine which Station Group is associated with that originating number for purposes of screening. 2. Code Groups: Contain the authorization codes of individuals that will be treated similarly in screening. Authorization

					codes are user-entered codes that can serve two purposes: screening and bill back.					

Table 16.2.3.6.a – Long Distance International Calling

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: Outbound International long distance services provided through AT&T's SDN (Software Defined Network) OneNet platform. The SDN platform supports all International calling requirements to the following countries with rates based on access type (dedicated and switched) and time of day. SDN is a custom network service that will provides a virtually private network with either dedicated (DS1, DS3, ISDN PRI) or switched (Dial 1) access.										
Geographic Availability: AT&T Dedicated network transport service for International calling is available throughout the United States, in all Incumbent Local Exchange Carrier (ILEC) territories open to competition as defined by the governing Public Utilities Commission where facilities are available either through AT&T-owned facilities or through resale of Incumbent Local Exchange Carrier facilities. For switched access requires a Primary Interexchange Carrier Code (PIC Code) be applied/supported by the Incumbent Local Exchange Carrier (ILEC).										
Service Limitations and Restrictions: Mobile terminations are any U.S. originating outbound calls that terminate on a mobile service outside of the U.S. In some countries, this simply means a mobile telephone. In others, "mobile" may be defined as any service which provides "mobility" to a customer, such as "personal follow me numbers" in the UK. Outside of the United States, mobile is largely a "Caller Pays" environment. This requires the foreign carrier to look to the call originator (in the U.S.) for payment. Mobile Terminations are not related to the type of phone used to place the call. Rather it is how it terminates that determines the call type.										
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Table 16.2.3.6.f Additional International Long Distance Countries Offered by the Contactor

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: Outbound International long distance services provided through AT&T's SDN (Software Defined Network) OneNet platform. The SDN platform supports all International calling requirements to the following countries with rates based on access type (dedicated and switched) and time of day. SDN is a custom network service that will provides a virtually private network with either dedicated (DS1, DS3, ISDN PRI) or switched (Dial 1) access.
Geographic Availability: AT&T Dedicated network transport service for International calling is available throughout the United States, in all Incumbent Local Exchange Carrier (ILEC) territories open to competition as defined by the governing Public Utilities Commission where facilities are available either through AT&T-owned facilities or through resale of Incumbent Local Exchange Carrier facilities. For switched access requires a Primary Interexchange Carrier Code (PIC Code) be applied/supported by the Incumbent Local Exchange Carrier (ILEC).
Service Limitations and Restrictions: Mobile terminations are any U.S. originating outbound calls that terminate on a mobile service outside of the U.S. In some countries, this simply means a mobile telephone. In others, "mobile" may be defined as any service which provides "mobility" to a customer, such as "personal follow me numbers" in the UK. Outside of the United States, mobile is largely a "Caller Pays" environment. This requires the foreign carrier to look to the call originator (in the U.S.) for payment. Mobile Terminations are not related to the type of phone used to place the call. Rather it is how it terminates that determines the call type.
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Table 16.2.4 – Operator Services

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: Directory Assistance which will enable the State callers to obtain telephone numbers for locations in the United States, Canada, and Mexico. Operators will provide assistance with the completion of domestic and international calls. AT&T trained operators are also available to handle emergencies and contact the appropriate authorities in times of emergency.
Geographic Availability: Where Long Distance Domestic Calling identified in section 16.2.3.5 above is available
Service Limitations and Restrictions: None.
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Table 16.2.4 – Operator Services

2	Operator Assisted Calls	22OPAST	Minute	Calls that utilize Operator services.		\$1.00	N/A	N/A	No	Required

Table 16.2.5 – Audio Conferencing Services

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: AT&T Teleconference Service allows multiple callers to participate in a single call. AT&T Teleconference Service connects two or more people using traditional voice switched-circuit technology, requiring only a telephone. Audio conference call can be established either by station controlled service or by accessing the network via a standard host provided dial-in number. This number can be toll free or caller paid.
Geographic Availability: This service is available throughout the United States and internationally.
Service Limitations and Restrictions: None.
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Table 16.2.5 – Audio Conferencing Services										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and Additional Information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
Table 16.2.5.a – Audio Conferencing Services										
1	Caller Paid Dial-in Reservation-less Service	CONF	Minute	Also known as "Meet-Me" service, participants dial a pre-established number and access code to join the conference call.		N/A	\$0.0150	N/A	No	Required
2	Toll-Free Dial-in Reservation-less Service	CONF	Minute	Also known as "Meet-Me" service, participants dial a pre-established toll-free number and access code to join the conference call.		N/A	\$0.0150	N/A	No	Required
3	Caller Paid Dial-in Reserved Service	CPRV	Minute	Host reserves a conference session in advance and receives a temporary dial-in number and access		N/A	\$0.0180	N/A	No	Required

Table 16.2.5 – Audio Conferencing Services										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and Additional Information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
				code. Participants dial the number and enter the access code to join the call.						
4	Toll-Free Dial-in Reserved Service	TFDIRV	Minute	Host reserves a conference session in advance and receives a temporary toll-free dial-in number and access code. Participants dial the toll-free number and enter the access code to join the call.		N/A	\$0.0300	N/A	No	Required
5	Operator-Dialed Service	COPD	Minute	An operator sets up the conference call by placing calls to each of the participants.		N/A	\$0.1200	N/A	No	Required
6	Operator-Assisted Dial-in Service	COPADI	Minute	Participants dial in to the conference number and the operator screens the callers for information such as password, name or location.		N/A	\$0.0800	N/A	No	Required
7	Recording Service	CONREC	hour	The capability to record to various media including CD, audiocassette or the Digitized Replay option below.		N/A	\$0.00	N/A	No	Required
8	Digitized Replay	CDIGTF	Minute	A user can listen to a conference call at their convenience by dialing an access		N/A	\$0.2000	N/A	No	Required

Table 16.2.5 – Audio Conferencing Services

				number/code. During replay the caller can control the session utilizing telephone keypad entries.						
9	Transcription	CONTRAN	15 Minute Block	The Contractor provided transcribing a conference call		N/A	\$50.00	N/A	No	Required
10	Language Interpretation/ Translation	CONLANG	Minute	Real-time interpretation and translation services		N/A	\$3.5000	N/A	No	Required
11	Security List Screening	CONSEC	Port	Host specifies a list of participants who may dial into the conference call. Conference Attendant screens callers against the list.		N/A	\$2.00	N/A	No	Required
12	Participant List	CONPL	Port	Conference Attendant captures up to three (3) caller attributes and distributes a list of conference participants to the host immediately following the call.		N/A	\$0.00	N/A	No	Required

Table 16.3.2 – Extended Demarcation Wiring Services

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: AT&T Extended Demarcation (Extended Demarc) wiring services support the services covered by Contract for all Customer occupied buildings where services under this Contract are being offered. Extended Demarc wiring includes wire/cable related activities required to extend the demarcation point to the Customer defined termination location or cross-connect point from the Contractor's MPOE. Extended Demarc wiring shall include the necessary wire/cable, connectors, jumpers, panel, and jack. Extended Demarc wiring shall also include associated trouble shooting, testing and labeling.

Service Limitations and Restrictions for 16.3.2.a:

- Installation of cabling for extending services from the MPOE location to the Customer's point of utilization
- Installation of cross connects or rearrangement of existing jumpers
- Identification and testing of existing cabling beyond the MPOE to the Customer's Equipment location
- Customer must provide access to facilities
- Customer to provide primary contact information on work orders
- Standard business office environment, working height is no more than 10ft in height in any area, is open and free of insulation or other obstructions, and has easily accessible drop-in panels.
- Removal and/or replacement of interlocking ceiling tiles not included
- Core drilling not included
- Backboards not included
- No special equipment is required to extend cabling (e.g. scissors lifts, extension ladder, hammer drill, concrete saw, jackhammer, etc.)
- Signal repeaters/extenders and media convertors are not included
- Cutting raised Floor tiles not included
- Material sales tax not included
- Performance bond fees not included
- Payment bond fees not included
- Permit Fees not included
- Raceways, conduits, communication poles/power poles, sleeves, surface mount channel raceways, innerduct not included
- Racks and associated hardware not included
- Scissor Lift, Man-Lift, Boom Lift not included
- Expedited shipping fees not included
- All material pricing excludes sales tax; material sales tax shall be applied at time of providing customers a quote and aligned to applicable site project addresses;
- All pricing is based upon California Prevailing Wages, prevailing wage craft, Telecommunications Technician, with exception of conduit, electrical and grounding work. Conduit, electrical and grounding work is based on prevailing wage craft Inside Wireman;
- Alterations or deviations, if any, from subsequent proposed scopes of work, or any delays or postponements of the work by the Client or it's agents which result in additional materials or labor costs will be billed at established unitized pricing. Any extra move on or off the job site due to circumstances beyond AT&T's control will be billed as an extra at hourly labor and equipment rates in effect at the time;
- Pricing is valid through original contract term;
- Client is responsible for identifying all areas containing asbestos, lead paint, and /or other hazardous materials. Client is also responsible for the removal and /or abatement of all hazardous materials and any associated costs;
- Client shall provide a suitable and safe environment for AT&T work at Client's premises. Prior to AT&T's commencement of the work proposed hereunder, Client shall advise AT&T of the presence on Client's premises of any substance or material that is classified as a hazardous material, hazardous chemical, hazardous substance, pollutant, contaminant, or toxic substance under any federal, state, or local law, regulation or ordinance ("Laws") related to the pollution or protection of air, ground or surface water, soil or other environmental media or occupational health and safety ("Hazardous Substance") or any other environmental or safety hazard. AT&T does not handle, remove, or dispose of Hazardous Substances on Client's premises;

- If, during its performance of services, AT&T's employees, subcontractors, or agents encounter a Hazardous Substance or other environmental or safety hazard, AT&T may suspend its performance until Client, at its own expense, completes the clean up and removal of the Hazardous Substance in accordance with applicable Laws or removes hazards to AT&T's satisfaction. Client's failure to abate a Hazardous Substance or hazard within thirty (30) days of AT&T's suspension of performance pursuant to this clause shall constitute a material breach for which AT&T may terminate this contract or the applicable order. Client shall pay AT&T for any costs, expenses, fines, or penalties incurred by AT&T as a result of the presence of the Hazardous Substance or hazard and its suspension of performance;
- All items excludes X-ray and/or radar of walls and floors.
- AT&T does not warrant and / or guarantee customer's existing cable facilities nor warrant or guarantee that the customer's existing cable facilities meets performance requirements, standards compliance or compliance with national or local codes.
- Only to be sold in conjunction with the provisioning of services specifically listed in Catalog 16.2.2.2.5.a.

Service Limitations and Restrictions for 16.3.2.b:

- The hourly classifications of hours worked for services described in this response/section will be as follows:
 - Regular Hours – Hours worked between 8:00am and 4:59pm, Monday through Friday;
 - Overtime Hours – Hours worked between 5:00pm and 7:59am, Monday through Friday and all day Saturday;
 - Sunday and Holiday Hours – Any hours worked on Sunday or State of California holidays.
- All material pricing excludes sales tax; material sales tax shall be applied at time of providing customers a quote and aligned to applicable site project addresses;
- All pricing is based upon California Prevailing Wages, prevailing wage craft, Telecommunications Technician, with exception of conduit, electrical and grounding work. Conduit, electrical and grounding work is based on prevailing wage craft Inside Wireman;
- Alterations or deviations, if any, from subsequent proposed scopes of work, or any delays or postponements of the work by the Client or it's agents which result in additional materials or labor costs will be billed at established unitized pricing. Any extra move on or off the job site due to circumstances beyond AT&T's control will be billed as an extra at hourly labor and equipment rates in effect at the time;
- Pricing is valid through original contract term;
- Client is responsible for identifying all areas containing asbestos, lead paint, and /or other hazardous materials. Client is also responsible for the removal and /or abatement of all hazardous materials and any associated costs;
- Client shall provide a suitable and safe environment for AT&T work at Client's premises. Prior to AT&T's commencement of the work proposed hereunder, Client shall advise AT&T of the presence on Client's premises of any substance or material that is classified as a hazardous material, hazardous chemical, hazardous substance, pollutant, contaminant, or toxic substance under any federal, state, or local law, regulation or ordinance ("Laws") related to the pollution or protection of air, ground or surface water, soil or other environmental media or occupational health and safety ("Hazardous Substance") or any other environmental or safety hazard. AT&T does not handle, remove, or dispose of Hazardous Substances on Client's premises;
- If, during its performance of services, AT&T's employees, subcontractors, or agents encounter a Hazardous Substance or other environmental or safety hazard, AT&T may suspend its performance until Client, at its own expense, completes the clean up and removal of the Hazardous Substance in accordance with applicable Laws or removes hazards to AT&T's satisfaction. Table 16.3.3 – Services Related Hourly Support

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: Work performed under this Section is authorized only for situations where the Contractor has dispatched personnel to diagnose a service problem that turns out to be caused by factors outside the responsibility of the Contractor (e.g., Network Interface Units/ circuit terminations, etc.) AT&T shall provide a fixed hourly rate schedule for labor classifications common to the diagnosis of contracted services. The rates identified shall only be used for the diagnosis of contracted services and no materials shall be provided.
Geographic Availability: US Domestic.
Service Limitations and Restrictions: None.
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.
