The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.

Catalog products and services in this category may contain Generative Artificial Intelligence (GenAI). Prior to ordering, Executive Branch State Entities shall work with CALNET Contractor AT&T Enterprises, LLC to determine whether products or services to be ordered contain GenAI and comply with the requirements set forth in State Administrative Manual section 4986.9 GenAI PROCUREMENT, including but not limited to performing GenAI Risk Assessment (SIMM 5305-F).

Table 18.2.3.2 - Business Access Line Features

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: Business Access Lines connect you to our central office over standard telephone wiring. This connection is an access to local calling, local toll calling, and Custom Calling features. It also provides access to long distance carrier networks for long distance calling.
Geographic Availability: Throughout the AT&T California service area.
Service Limitations and Restrictions: Subject to availability of facilities. Some features, if noted in Feature Restrictions, are available only on certain CO switch types. Switch types present in the serving Central Office for a given location can be determined by contacting AT&T or through publicly available data sources.
The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Table 18.2.3.2 - Business Access Line Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and Additional Information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
Table 18.2.3.2.a - Business Access Line Features										
1	Basic Business Access Line	BLB01	Line	Business Access Line	Class of service for any customer who is subscribing to one or more than one switched access line. Basic lines give customers access to the network by providing dial tone and the ability to make calls. Includes Caller ID blocking and Message Waiting	\$125.00	\$11.76	\$125.00	Yes	Required

2	Call Waiting	ESX	Line	Notifies the End-User of an incoming call when on another call	Busy Call Forwarding overrides Call Waiting. A Waited call cannot be answered by an answering machine or recording equipment. Series completion hunting overrides ESX in the 5ESS switch	\$5.70	\$3.89	\$5.70	No	Required
3	Call Forwarding	ESM	Line	Directs all incoming calls to any other designated telephone number	"Forwarded to" number must be in North America and must be a minimum of seven (7) digits with a maximum of eleven (11) digits and is not available to international numbers. Call Forwarding takes precedence over hunting when install on first line of hunt group.	\$5.70	\$3.89	\$5.70	No	Required
4	Busy Call Forwarding	EVB	Line	Automatically re-routes calls to another station or voice mail box as designated by the End-User when the line is busy	"Forwarded to" number must be in North America. Hunting and Call Forward Busy is not compatible in DMS switch. "Forwarded to" Number may be	\$5.70	\$3.89	\$5.70	No	Required

Table 18.2.3.2 - Business Access Line Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and Additional Information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
					different local exchange only in the 5ESS and the DMS central office. If "forwarded to" number is a DID number the DID must be preconditioned to accept the call. When both Busy Call Forward and Delayed Call Forward are on the same line the "Forwarded to" Number may be different only in the 5ESS and the DMS switch.					
5	Restricted Call Forwarding	EVC	Line	Forwards calls to a permanent number designated by the End-User, either inside or outside of the local exchange when the line is busy	If "forwarded to" number is a DID number the DID must be preconditioned to accept the call.	\$5.70	\$3.99	\$5.70	No	Required
6	Call Forward Ring No Answer	EVD	Line	Forwards calls to a number designated by the End-User after a selected number of rings	"Forwarded to" number must be in North America and must be a minimum of seven (7) digits with a maximum of eleven (11) digits and is not available to international	\$5.70	\$3.99	\$5.70	No	Required

Table 18.2.3.2 - Business Access Line Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and Additional Information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
					precedence over hunting when install on first line of hunt group numbers. Call Forwarding takes					
7	Selective Call Forwarding	CSF	Line	Forwards up to ten (10) pre-programmed numbers to another telephone number designated by the End-User	"Forwarded To" Number cannot begin with "0", be outside the North America numbering plan and must be a minimum of 7 digits and a maximum of 11 digits. Transmission Quality may be reduced depending on requirements to complete call, distance and routing.	\$5.70	\$4.65	\$5.70	No	Required
8	Remote Access to Call Forwarding	RAF	Line	Allows the End-User to control and change Call Forwarding from any touch-tone phone	Customer must have Call Forwarding feature. Must use set with touch tone capability to operate.	\$5.70	\$1.38	\$5.70	No	Required
9	Caller ID	CNM	Line	On incoming calls, provides the number and name of the calling party for display on Caller ID compatible CPE	Display equipment is required and must be purchased separately.	\$5.70	\$7.12	\$5.70	No	Required

Table 18.2.3.2 - Business Access Line Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and Additional Information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
10	Callback	CCR	Occurrence	Calls back the last incoming call	Calls back the last number that called, even if the user does not know the name or number of the caller. If the line is busy, Call Return keeps trying for up to 30 minutes. When the line is free, Call Return gives a signal with a special ring, and then proceeds to place the call. You can place or receive calls while Call Return is at work. In addition, you can call back more than one number at a time.	\$5.70	N/A	N/A	No	Required
11	Call Screen	CCB	Line	Allows the End-User to reject calls from up to ten (10) preprogrammed numbers, including the last number called if the End-User so designates	When a call from the list comes in, the user's phone does not ring, and the caller hears an AT&T recording indicating the call will not be accepted.	\$5.70	\$4.65	\$5.70	No	Required
12	Call Trace (per trace)	CALTR	Trace	Subscriber initiates a trace on the last call received by dialing a code that automatically requests that the	Call Trace to a line with Busy Call Forwarding, call forward Delayed Call forward, or Call	\$5.70	N/A	N/A	No	Required

Table 18.2.3.2 - Business Access Line Features

23	Business Access Miscellaneous Change Charge	NWCCF	Change	Rearrangements of existing Busy and Delayed Call Forwarding features.	Rearrangements of existing Busy and Delayed Call Forwarding features require the following Miscellaneous Change Charge: (1) Change designated number of delayed rings (2) Change forwarded to number (3) Change designated number of delayed rings and forwarded to number on same line e. Changes to the Personal Identification Number (PIN) for Remote Access to Call Forwarding require the following Miscellaneous Change Charge: (1) Change the designated PIN	\$5.70	\$0.00	\$5.70	No	Required
24	Anonymous Call Rejection	CRE	Line	Allows Customer to reject incoming calls from callers who have blocked delivery of their telephone number (marked private)		\$5.70	\$1.90	\$5.70	No	Required

Table 18.2.3.2 - Business Access Line Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and Additional Information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
25	Non Published Listing	NPU	Line	Non published telephone numbers are not listed in directories or Directory Assistance records available to the general public.		\$0.00	\$1.50	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

Contractor's Description of Service, include required service description, features and additional features offered by Contractor: Centrex is a business voice communications product that we can provision over copper and fiber facilities. This service includes station wiring to the jack. These facilities originate in our central office. We maintain all facilities 24x7. Centrex service is a central office based communications system equipped with primary station lines, capable of receiving direct in-dialed calls and direct out-dialed calls.										
Geographic Availability: Throughout the AT&T California service area.										
Service Limitations and Restrictions: Subject to availability of facilities. Some features, if noted in Feature Restrictions, are available only on certain CO switch types. Switch types present in the serving Central Office for a given location can be determined by contacting AT&T account team.										
The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.										
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

				Flexible Route Selection, Direct Digital Interface (DDI), Tie Lines.						
23	Area Wide Centrex	AWCX3	system	Links multi-location, inter-exchange, intra-LATA Centrex business systems into a common Centrex business system. Provides an abbreviated statewide dialing plan via AIN software capabilities. Suppresses usage charges for inter-Centrex, intra-LATA voice calls ("On-Net") between participating customer's AWC locations. Provides broadened Carrier Select (optional) and Route Select (optional) decision points to include: NPA/NNX, Specific Date, Percentage Allocation, Current Time of Day, Day of Week. Custom Virtual Network (CVN) not required	Centrex required on originating telephone numbers. Central office must have: SS7 technology and Advanced Intelligent Network (AIN) platform. Originating Number must be AT&T Centrex. Terminating number may be other than AT&T Centrex for Off-Net 1 or Off-Net 2 calling. If subscription to AWC is required in a single Centrex common block that serves one or more physical locations (based upon service address), all Centrex stations in at least one of locations must subscribe to AWC feature. Requires minimum of two BTNs (one must be a Centrex #):	\$8.00	\$1.95	\$5.00	No	Required

37	Customized Account Codes	DGACE	Line	The station user is prompted for, and required to, enter a predetermined account code. The switch will verify the account code entry prior to call completion. If the code is not valid, then the outgoing call is denied.	Customized codes: more than 200 codes, wants to choose own codes, or are on DMS 100 switch and want account codes on more than one treatment code. Charged per 50 customized codes	\$23.75	\$5.00	\$0.00	No	Required
38	Directed Call Pick-up	DMA1E	Line	A station user may answer calls directed to any other station line in the Centrex system by dialing the unique answer code and the number of the station to be answered. Line feature	The station picking up the call and the station whose calls are to be picked up must be in the same Centrex group. With Directed Call Pickup, the call pickup group may be the entire Centrex system. The number of primary station lines in a call pickup group is generally limited by the audible or visual facilities used to provide suitable identification of the primary station line that is ringing.	\$0.00	\$0.15	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
39	Six Port Conference Calling	DMS6P	system	Allows the user to establish a conference call of up to 6 conferees (including the originator).		\$0.00	\$0.05	\$0.00	No	Required
40	Centrex Auto AnswerBack Feature	DMSAA	Line	Incoming calls to the Centrex EBS are automatically answered after four seconds and placed on user speaker phone-EBS Only	Requires a hands-free EBS or MBS set. Call Forward - Don't Answer and this feature are mutually exclusive. DMS-100 switch only.	\$0.00	\$0.10	\$0.00	No	Required
41	Automatic Dial	DMSAD	Line	Allows user to program and call frequently called numbers by depressing a single key. EBS only	EBS only. DMS-100 switch only.	\$0.00	\$0.15	\$0.00	No	Required
42	Centrex Direct Connect	DMSAL	Line	Automatically establishes connection to a predetermined number when the user goes off hook.		\$0.00	\$0.25	\$5.00	No	Required
43	Executive Busy Override Exempt	DMSBR	Line	Station equipped with this feature cannot be barged in on by a station using Executive Busy Override	Executive Busy Override Exempt cannot be assigned to stations in a hunt group	\$4.75	\$0.47	\$28.50	No	Required
44	Direct Inward System Access	DMSDS	system	Permits selected callers to dial into a Centrex system and gain access to system's network	DISA directory number can be associated with an 800 number. DISA	\$261.23	\$2.50	\$261.23	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
				facilities and features without assistance from an attendant. A DISA directory number is a 7 digit number from the Centrex number range.	Authorization codes are required. Only one transaction at a time per DISA access is allowed. Once a transaction is completed, caller must hang up and dial DISA number again.					
45	Executive Busy Override	DMSEB	Line	Permits a station End-User to interrupt on a station that has a call in progress. Parties engaged in conversation hear a warning tone before a new caller joins their conversation.	This feature is not compatible with Hunting and Call Waiting. This feature cannot be activated on a three-way call, call transfer or on calls forwarded by Call Forward.	\$0.00	\$0.25	\$0.00	No	Required
46	Group Intercom	DMSGC	Line	Enables station user to Call another member of a pre-designated group using 1, 2, 3, or 4 digit code from a group intercom key		\$0.00	\$2.00	\$0.00	No	Required
47	Last Number Redial	DMSLR	Line	Enables a user to automatically redial the last called number.		\$0.00	\$0.10	\$0.00	No	Required
48	Network Speed Calling	DMSNS	Line	Allows Centrex station access to common speed call list of frequently dialed numbers		\$0.00	\$0.75	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
49	Preset Conference	DMSPC	Line	Enables station users to establish conference call with up to 25 preselected conferees by dialing a specific conference telephone number	While on the Preset Conference Call the following features are disabled: Call Waiting, Three-way Calling and Executive Busy Override	\$0.00	\$1.00	\$0.00	No	Required
50	Privacy Release	DMSPR	Line	Allows MADN members to establish conference between other members of the MADN group by releasing the privacy the Directory Number (DN).	EBS only. DMS-100 switch only.	\$5.00	\$0.25	\$5.00	No	Required
51	DMS100 Intercom Clg Feature	DMSTC	Line	Allows user to directly terminate on a pre-designated key on another EBS set by pressing the DMSTC key	EBS only. DMS-100 switch only.	\$0.00	\$0.10	\$0.00	No	Required
52	Time and Date Display	DMSTD	Line	Displays current time and date on an EBS set.	EBS only. Requires set with display. DMS-100 switch only.	\$0.00	\$0.10	\$0.00	No	Required
53	Directed Call Pick-up Group	DPG	Line	A station user may answer calls directed to any other station line in the Centrex system by dialing the unique answer code and the number of the station to be answered. The	The station for which calls are to be picked up must be arranged for Directed Call Pickup. The station picking up the call and the station whose calls are to be	\$100.00	\$5.00	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
				station for which calls are to be picked up must be arranged for Directed Call Pickup. Group feature	picked up must be in the same Centrex group. With Directed Call Pickup, the call pickup group may be the entire Centrex system. The number of primary station lines in a call pickup group is generally limited by the audible or visual facilities used to provide suitable identification of the primary station line that is ringing					
54	Distinctive Ringing system	DRR	system	Signals the source of an incoming call through a distinctive ring, notifying the called party if the call has originated from within or outside the Centrex		\$201.00	\$5.00	\$0.00	No	Required
55	Direct Station Selection Busy	DSBLF	Line	Allows user to observe busy lamp indication on assigned feature key. User can press feature key to call monitored directory number.	EBS only. DMS-100 switch only.	\$5.00	\$0.35	\$5.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
56	Spd Clg Group 30 Code Fixed	E2G	Line	Allows a selected group of users to reach up to 30 preselected numbers by dialing abbreviated codes instead of complete number.	Numbers are coded into the system and require an order to change.	\$4.75	\$0.95	\$28.50	No	Required
57	Speed Clg Fixed Indiv 6 Code	E3G	Line	Allows station user to reach up to 6 preselected numbers by dialing abbreviated codes instead of complete number.	Numbers are coded into the system and require an order to change.	\$4.75	\$0.47	\$28.50	No	Required
58	Call Pickup	E3P	Line	Allows a user to answer any ringing phone in their designated group, from their station.	Requires E3N-Call pick up group feature.	\$0.00	\$0.10	\$5.00	No	Required
59	Call Hold	EAB	Line	Allows a user to place a call on hold for an unlimited period of time, even on a phone with no hold button	Call Waiting tone will not be presented when the in progress call has been placed on Call Hold	\$0.00	\$0.08	\$0.00	No	Required
60	CFW Variable Facility Station	EAP	system	Allows users to forward calls to other phone lines outside the Centrex common block utilizing private facilities	Requires EAY system feature	\$0.00	\$2.00	\$0.00	No	Required
61	CFW Variable Limited	EAT	Line	Call Forwarding/ Variable Limited allows user to forward calls to	Allows users to forward calls to other phone lines inside the Centrex	\$0.00	\$0.15	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
				another station within the same Centrex	common block. The user "programs" the telephone with the number calls are to be forwarded to.					
62	CFW Variable Facility System	EAY	system	System feature that allows users to forward calls to other phone lines outside the Centrex common block utilizing private facilities	Requires EAP line feature	\$696.00	\$60.00	\$0.00	No	Required
63	Message Service Leave Message	EMWEX	Line	Provides for more than one message waiting key to be assigned to an EBS set. Will provide individual message waiting indicator for separate voice mail boxes	EBS only. DMS-100 switch only.	\$30.00	\$0.51	\$30.00	No	Required
64	CI Fwdg Variable Unlimited	ESMCS	Line	Allows users to forward calls to other phone lines inside or outside the Centrex common block. The user "programs" the telephone with the number calls are to be forwarded to.	Forwarding to International Direct Distance Dial is not allowed. Call Forward Variable Unlimited, Takes precedence over Call Waiting, Call Forward Busy and Call Forward Don't Answer	\$0.00	\$0.15	\$0.00	No	Required
65	Call Forwarding per Key	ESMPK	Line	Enables each directory number (DN) on an EBS set	EBS only. DMS-100 switch only.	\$5.00	\$0.35	\$5.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

				to be forwarded to a different directory number,						
66	Electronic Business Set Call Request	EWB	Line	Provides message-waiting lamp on EBS when: Call Request was activated against RXC, a message is waiting in customer's SBC Voice Mailbox, allows user to activate/deactivate a Call Request against another RXC	EBS only. DMS-100 switch only.	\$30.00	\$0.10	\$0.00	No	Required
67	Station Call Request	EWS	Line	Allows a user to dial a code to activate an audible or visual signal on another station equipped with message waiting. Also works with AT&T Voice Mail	Not available on EBS	\$30.00	\$0.10	\$0.00	No	Required
68	Facility Restriction Level Route	FRK++	Line	Determines calling areas and station facilities used on each station line and incoming tie line in an ETS tandem. . (++ is a placeholder for multiple product options with ID variation in the ++ characters)		\$4.04	\$0.14	\$4.75	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
69	Flexible Route Selection Svc	FRSBA	system	Automatically routes calls over a specified sequence of customer designated routes as available	Requires Flexible Route Selection common equipment	\$810.00	\$0.00	\$0.00	No	Required
70	Flexible Route Selection Additional Pattern(s)	FRSPT	system	Additional customer designated routes	Requires Flexible Route Selection common equipment	\$90.00	\$0.00	\$35.00	No	Required
71	Call Forward Reason Display	FRWRD	Line	Call-Forward Reason Display gives you and the person calling you the originally-called number, the forwarded-to number, and the reason the call has been forwarded (i.e.-all calls to that set are forwarded, the call was not answered, or the phone is busy).	Requires Electronic Business set with display.	\$25.00	\$18.00	\$25.00	No	Required
72	Fast Transfer	FSTXR	Line	Allows transfer to be completed without pressing the transfer key twice	EBS only DMS-100 switch only.	\$5.00	\$0.15	\$5.00	No	Required
73	System Distinctive Ringing	GDR	system	Provides station users the ability to determine the source of an incoming call by using a unique ringing pattern determined by switch	System Distinctive Ringing is applied to all stations in system and is not provided selectively to individual stations	\$201.00	\$0.50	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
74	Group Intercom-All Calls	GRPAL	Line	Allows member of a group intercom to simultaneously page up to 29 predefined EBS equipped members of the same GIC group. EBS only.	Requires Group Intercom. DMS-100 switch only.	\$5.00	\$0.35	\$5.00	No	Required
75	Key Short List Group	KSH	Line	Permits incoming calls to hunt up a set of Directory Numbers (DNs) on an EBS/MBS set	Not compatible with Hunting. EBS only. DMS-100 switch only.	\$0.00	\$0.10	\$0.00	No	Required
76	Last Number Redial	LNRDL	Line	EBS set user from any key can redial the last number called from any Directory Number (DN) on the set by pressing a code	EBS Only. DMS-100 switch only.	\$5.00	\$0.10	\$5.00	No	Required
77	Meet Me Conf Max 30 Conn	MMELG	system	System feature. Allows a user to conference with up to 30 conferees on a call. Conferees call into a designated number.	Limited to 16 Conference Bridge numbers per Centrex system. At least one member of the conference must be a centrex line in customer group that provides Meet Me conference number	\$185.00	\$115.00	\$0.00	No	Required
78	Meet Me Conf Max 6 Conn	MMESM	system	System feature. Allows a user to conference with up to 6 conferees on a call. Conferees call	Limited to 16 Conference Bridge numbers per Centrex system. At least one member of	\$150.00	\$35.00	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

				into a designated number.	the conference must be a centrex line in customer group that provides Meet Me conference number.					
79	Music on Hold System Feature	MUS	system	System feature. Provides music or an announcement on the line as the caller is on hold	Requires a new Music on Hold circuit to customer provided music/announcement source. Requires Music on Hold-Line (MUSES). Available in DMS-100 and select 5ESS COs	\$210.00	\$5.00	\$0.00	No	Required
80	Music on Hold Line Feature	MUSES	Line	Provides music or an announcement on the line as the caller is on hold.	Also requires Music on Hold system feature. Line feature must be applied to each line in the Centrex	\$7.00	\$0.10	\$0.00	No	Required
81	On-Net Calling Capability	ONCSC	Line	Where provisioned On-Net Calling Capability enables a user to dial within the area of the extended Centrex without incurring usage charges. THIS IS NOT THE VIRTUAL AIN BASED AREA	At the option of DTS/STND, On-Net Calling Capability can be provisioned in the following metropolitan areas: Sacramento, San Francisco Bay Area, Los Angeles, and San	\$0.00	\$0.25	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

				WIDE CENTREX PRODUCT	Diego. May require a number change					
82	Query Busy Station	QBS	Line	Allows EBS user in a group to monitor busy status of another group member and provides an alert when busy member's EBS is idle.	EBS only. DMS-100 switch only.	\$8.50	\$1.50	\$8.50	No	Required
83	Remote Access to Call Forwarding	RAFCA	Line	This features allows customer to change "forward to" number, activate, or deactivate Call Forwarding from a remote location	Not available on ISDN or EBS Requires Call Forwarding feature	\$7.00	\$0.10		No	Required
84	Originating Line Select	RGLNS	Line	Automatically selects first idle line beginning with the primary DN to place an outgoing call	EBS only. DMS-100 switch only.	\$5.00	\$0.35	\$5.00	No	Required
85	Terminating Line Select	RGTLS	Line	Allows an incoming call to be answered by user lifting handset from the cradle without having to depress a DN key.	EBS only. DMS-100 switch only.	\$5.00	\$0.35	\$5.00	No	Required
86	Repeat Alert	RPTAL	Line	Provides up to 7 warning tones on an active EBS set to alert the user that another incoming call is waiting to be answered.	EBS only. DMS-100 switch only.	\$5.00	\$0.10	\$5.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
87	Off-Prem Extension Line	RVY++	Line	An extension of a Centrex line working at an address other than the primary line appearance address. . (++ is a placeholder for multiple product options with ID variation in the ++ characters)		\$16.15	\$10.45	\$28.50	No	Required
88	Interior Station Line	RX5	Line	Restricts line from calling outside the centrex	Grandfathered type of service will support existing service only. For new interior stations see RX5AX.	\$25.00	\$1.55	\$25.00	No	Required
89	Interior Station Line	RX5AX	Line	Supports intra-system communication only.	Interior stations are restricted from making and receiving any calls outside of the Centrex system. Optional station features prohibited,	\$25.00	\$1.55	\$25.00	No	Required
90	Ctx Feature Line Card D	RXBJ+	Line	DMS100 DATA PATH LINE-LINE CARD TYPE D. (+ is a placeholder for multiple product options with ID variation in the + character)	Available on DMS-100 Switch only	\$0.00	\$30.83	\$94.99	No	Required
91	Primary Station Centrex-EBS	RXC++	Line	Primary Station Line terminating on a Type C line card to support Electronic	Customer premises within 15,000 feet from serving Central	\$0.00	\$1.65	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

				between systems (Centrex or PBX) via a voice grade circuit. By using Tie Lines for intra-company calls, Centrex lines are kept free for outgoing or incoming calls. . (++) is a placeholder for multiple product options with ID variation in the ++ characters)						
96	Network Change Charge	NWC	change	Add, (including 9+ treatment codes) change, rearrange or modify Centrex Basic Feature arrangement		\$0.00	\$0.00	\$28.50	No	Required
97	Shared Directory Number	SA2A+	Line	An additional appearance of a primary or secondary number on another set in the Centrex system. (Each set has it own primary number. Shared numbers can be added in addition to the primary number assigned for that set.)	ISDN only. 5ESS rules: Treatment code is the same wherever that number appears. Same number can appear on up to 7 additional sets (for a maximum of 8 appearances, systemwide) Multiple appearances can be shared, but the shared location can not have more multiples than the primary.	\$0.00	\$0.20	\$5.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
					Shared appearances can have: Abbreviated and Delayed Ringing, or Privacy. DMS rules: Can not appear on key 1 of the terminal. (Key 1 is reserved for the primary number.) If the number is shared, it can not have multiple appearances.					
98	Secondary Number	SEDN+	Line	The first appearance of a unique directory number on a CPE that already has a primary number assigned. Sometimes called a "Virtual Directory Number" because it shares the channel with other numbers, but has some attributes of the primary number.	ISDN only. 5ESS rules: Treatment Code is the same as that of the primary number on the same set. PIC code is the same as that of the primary number on the same set. Multiple appearances allowed (i.e. same number can appear up to a maximum of 16 times per set). Can have shared appearances (same number can appear on up to 7 additional, for a maximum of 8 appearances,	\$5.00	\$0.50	\$5.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

100	Calling Name Display-Group	SNDSY	Line	Enables members of an EBS group to view the name of the incoming group member's name	Name display can only be viewed on a compatible EBS set display. Requires Calling Name Display Line (SND) for each member.	\$5.00	\$0.75	\$10.00	No	Required
101	Service Connection Six-Way Conf Clg Per System	SWC	system	Allows the user to establish a conference call of up to 6 conferees (including the originator).	Requires line feature (SWCLN)	\$123.49	\$38.00	\$0.00	No	Required
102	Service Connection Six-Way Conf Clg Per Line	SWCLN	Line	Allows the user to establish a conference call of up to 6 conferees (including the originator).	Requires system feature (SWC)	\$15.00	\$0.00	\$0.00	No	Required
103	Each Tie Line or Pvl in Route Selection Pattern	UNF	termination	Tie line and/or inter-machine trunk termination, each termination	Requires Automatic Route Selection - Electronic Tandem Network, Automatic Alternate Routing, Universal and Automatic Alternate Routing Patterns.	\$0.00	\$0.15	\$0.00	No	Required
104	Route Selection Pattern	UNP	system	System feature, common equipment. Permits alternate choices for routing of calls on Electronic Tandem Network.	Requires Automatic Route Selection - Electronic Tandem Network and Automatic Alternate Routing, Universal	\$30.00	\$0.15	\$75.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
105	Uniform # Alternate Routing	UNR	system	System feature, common equipment. Permits universal number, alternative routing on Electronic Tandem Network feature	Requires Automatic Route Selection - Electronic Tandem Network	\$7,350.00	\$25.00	\$0.00	No	Required
106	Virtual Directory Number	VDN++	Line	An additional appearance of a primary or virtual directory number. Must be assigned to a key with a lamp on key 2 or above. Can only appear once as a primary virtual directory number. . (++ is a placeholder for multiple product options with ID variation in the ++ characters)	EBS only. An interior station cannot have a secondary virtual directory number. There cannot be more than 15 appearances of a specific virtual directory number. Cannot be in a hunt group. Requires VDP++. DMS-100 switch only.	\$5.00	\$0.00	\$0.00	No	Required
107	Sectional Billing-Agency Acct	ZZFAG	Line	Allows the user to group individual Centrex lines by agency on a separate bill		\$25.00	\$0.10	\$0.00	No	Required
108	Pilot Acct Sectional Billing	ZZFPA	Line	Allows the user to group individual Centrex lines by department, agency or work group on a separate bill.		\$0.00	\$0.10	\$0.00	No	Required
109	Auto Callback Equip Per System	ACY	system	System feature Automatically notifies the user when a previously busy station becomes idle and	Requires Automatic Callback line feature. Not compatible with Call Return	\$565.00	\$0.04	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

					Customer of Record or legal subsidiary of the Customer of Record. Inter-Centrex calls must remain intra-LATA. Centrex-to-non-Centrex calls must be part of the same LATA as the original Centrex system. Centrex-to-Centrex calls will be two-way capable; Centrex-to-off-network calls will be one way only (i.e., leaving the Centrex system). AT&T must be the intra-LATA carrier (LPIC) for local toll calls when a DPAS call is placed. All other directly dialed, local toll calls will default to the customer's pre-existing LPIC carrier. Calls to an out-of network telephone number in a Rate Center that is different from that of the originating Centrex

				longest. Also known as Queue Status Lamp. Permits use of up to three lamps to indicate various timing states of delay. Delay times are specified by customer and/or are limited in each switch type.	premises for each lamp. Requires Customer Provided Equipment (CPE) lamps.					
130	DISA Authorization codes	1HN	identifier	DISA Authorization codes - first 100 codes or fraction thereof.	Requires Direct Inward System Access (DISA).	\$71.24	\$0.00	\$71.24	No	Required
131	Flexible Route Selection Common Equipment	ARQES	identifier	Automatically routes calls over a specified sequence of customer designated routes as available.		\$474.96	\$223.23	\$0.00	No	Required
132	Direct Out	ASUM9	identifier	Provides a dialing plan that allows calls from within the Centrex to be placed to numbers outside the Centrex without dialing an access code.		\$0.00	\$0.00	\$0.00	No	Required
133	Caller ID Blocking	CNMBK	Line	Complete Blocking with Selective Unblocking. Automatically blocks number delivery on all calls. Station user may deactivate blocking on a per call basis by dialing *82.		\$0.00	\$0.00	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
134	Direct Inward and Outward Dialing	DDT	identifier	Enhances Call Transfer-All Calls and Universal Call Transfer to let a station user transfer DID calls to a remote number outside of Centrex system. Once transfer leg is established, station user can hang up and call is maintained.		\$189.00	\$0.00	\$0.00	No	Required
135	Distinctive Ringing DMS Line	DRR++	Each	Provides distinctive ringing on a per line basis. Ringing patterns assigned from a predefined list. . (++ is a placeholder for multiple product options with ID variation in the ++ characters)	Requires GDR. Available on the DMS switch.	\$0.00	\$0.15	\$5.00	No	Required
136	Hunting	HTG	Occurrence	Allows incoming calls to search a group of multiple lines in the same exchange, of same class of service, and of the same customer for an idle line.	Not compatible with EBS MADN groups.	\$30.00	\$0.50	\$30.00	No	Required
137	Circuit Switched Alternate Voice/Data on a B Channel	LCS1X	Identifier	One of the Bearer services available on B Channel. Provides the users availability to switch	CPE sets must be capable of both voice and data. If user is active on a data call on both	\$0.00	\$0.00	\$5.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

				between voice and data on a call by call basis. Services can be configured like voice or like data.	B Channels, a voice call attempt would be blocked. If CPE configuration is capable of more than two channels at the same time, customer must manage any contention that may arise. ISDN only.					
138	Circuit Switched Voice Services on a B Channel	LCS5X	Identifier	One of the Bearer services available on the B channel. Each voice device requires a unique directory number; however, numbers can be shared from one station to another. Secondary Directory Numbers are also available.	ISDN compatible CPE required. No extension sets are allowed. Analog CPE devices (e.g., answering machines, facsimile machines, etc.) require special adapters or may not be compatible.	\$0.00	\$0.00	\$5.00	No	Required
139	Circuit Switched Data Services on a B Channel	LCS6X	Identifier	One of the Bearer services available on B Channel. Can "bond" B Channels to provide greater bandwidth. Centrex-IS voice service with special terminal adapters can receive analog data calls.	ISDN compatible CPE required. No analog modem required. Can only send data to other compatible services: Another Centrex-ISDN station; Customer provided "modem pool" set up for ISDN	\$0.00	\$0.00	\$5.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

					transmission; Switched 56 or 64 service for another vendor or IEC. Data calls can't be sent to analog devices unless using special terminal adapters.					
140	Incoming & Outgoing Call ID	LXO	Each	Provides number identification of both incoming and outgoing calls to CPE sets equipped with display. Available in both Voice and Data services. Two versions available: Primary-call information is only sent to terminal where the called directory number is primary number of the set. All-call information is sent to each terminal having directory numbers (i.e., primary as well as shared appearances).	Data - only assign when CPE can use display information. ISDN only	\$0.00	\$0.00	\$0.00	No	Required
141	Additional use of B Channel Primary Directory Number	MADDC	Each	The Centrex ISDN primary number (SDNA+) can be assigned to another B channel device used for data.	Only available with Custom configuration. Not available for National 1	\$0.00	\$0.00	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

					configuration ISDN only.					
142	Music On Hold - System	MUSSY	System	System feature. Provides music or an announcement on the line as the caller is on hold. Doesn't require a new music source.	Requires a Music on Hold circuit to customer provided music/announcement source. Requires Music on Hold-Line (MUSES)	\$210.00	\$5.00	\$0.00	No	Required
143	Privacy Release	PRLKY	Identifier	Allows a conference call between shared numbers.	ISDN only. Both Privacy and Privacy Release may be assigned to the same voice terminal; each requires its own key.	\$0.00	\$0.00	\$0.00	No	Required
144	B Channel Primary Number	SAVH1	Each	Unique directory numbers for addition B Channel Devices.	ISDN Only. Cannot be a primary number.	\$0.00	\$0.00	\$5.00	No	Required
145	Semi or Fully Restricted Line	TGSRF	Identifier	Terminal Group Station Restriction works in conjunction with the Treatment Code assigned to each number. This is a required feature on each B Channel with a unique directory number (either voice or data service). Applies to both Primary and Secondary Directory Numbers. Originating	Restriction levels: must be set for both originating (outgoing) and terminating (incoming) and must not conflict with treatment code.	\$0.00	\$0.00	\$5.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

				(outgoing) and terminating (incoming) calls can have any combination of the following restriction levels: U = Unrestricted/ unlimited calling; S = Semi Restricted - calls within						
146	Calling Number ID Block, Call Review, Time & Display	PDDL3	Identifier	Can block your number from showing when making outgoing calls. Displays call related information on active calls or displays feature associated with buttons on set. Time and Date will be displayed on telephone set.	ISDN only. Available in 5ESS. Also known as "inspect" in Vendor documentation.	\$0.00	\$0.00	\$0.00	No	Required
147	ISDN Group Intercom	XCMDM	Identifier	Allows user to establish an intercom call.	ISDN only Multiple occurrences are not allowed.	\$0.00	\$0.00	\$5.00	No	Required
148	Information Services Call Blocking	CL9	Line	Prevent user from dialing 900/976 number.	Only blocks direct dialed calls.	\$0.00	\$0.00	\$0.00	No	Required
149	Non Verified Non-Forced Account Codes—Line	CMDNF	Identifier	Allows a Centrex station user to enter user selected identification number after dialing a telephone number outside the Centrex system. User has	Requires system feature. ETS Authorization Codes and Customer Dialed Account Recording (CDAR) are not	\$0.00	\$0.00	\$0.00	No	Required

				transferred between packages	Must include Package 1000, 2000 or 3000.					
152	Package 3000 (Bundled)	CNET3	Identifier	Verizon Centrex: Includes all of the features of Package 2000 plus 30 Speed call individual, ARS/FRS, Remote Access to Features and Message Detail Recording. Features may not be substituted to, deleted from or transferred between packages.	A customer must have a minimum of two station lines (priced separately) which must terminate at one location of the customer and within the serving area of the same Central Office. Must include Package 1000, 2000 or 3000.	\$30.00	\$3.72	\$0.00	No	Required
154	Centrex in Verizon Territory CLASS	GECAA	Identifier	Includes Automatic Busy Redial, Automatic Call Return, Call Block, Special Call Acceptance, Special Call Forwarding and Special Call Waiting.	Must also subscribe to at least Feature Package 1000.	\$0.00	\$5.00	\$0.00	No	Required
155	Station to Station Dialing	GEFCB	Identifier	Allows a station user to dial another station within the same Centrex in Verizon Territory customer group using just the last four digits of the telephone number.	Available in Feature Package 1000, 2000 and 3000.	\$0.00	\$0.00	\$0.00	No	Required
156	Toll Restriction	GEFCF	Identifier	Disallows the dialing of long distance calls.	Available in Feature Package 2000 and 3000.	\$0.00	\$0.00	\$0.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
157	Automatic Route Selection /Flexible Route Selection (ARS/FRS)	GECFD	Identifier	Automatically selects the most economical route to a destination. Feature Package 3000 includes 3-digit routing to selectively route calls over two or more routes with a capacity of 8 patterns per customer group.	Available in Feature Package 3000.	\$0.00	\$0.00	\$0.00	No	Required
158	Remote Access to Features	GECFE	Identifier	Allows a user who is away from the office to dial directly into the Centrex in Verizon Territory system and gain complete access to Centrex in Verizon Territory system facilities and outgoing trunk circuits.	Available in Feature Package 3000. The user must have a security access code.	\$0.00	\$0.00	\$0.00	No	Required
159	Message Detail Recording	GECFF	Identifier	Provides a record of originating messages.	Available in Feature Package 3000. It is not a source for billing detail.	\$0.00	\$0.00	\$0.00	No	Required
160	Automatic Busy Redial	GECFG	Identifier	An arrangement which permits the customer to redial automatically the last number dialed.	Available as part of Centrex in Verizon Territory CLASS package.	\$0.00	\$0.75	\$0.00	No	Required
161	Paging Interface	GECFH	Identifier	Allows Centrex in Verizon Territory stations to access customer provided loudspeaker paging	Paging Interface does not provide facility path from paging source.	\$105.00	\$26.85	\$30.00	No	Required

				preferred available route.						
178	Flexible Route Selection (FRS) - 3 digit / 32 patterns	GECEB	Identifier	3 digit Routing to selectively route calls over two or more routes for a capacity of 32 patterns.		\$80.74	\$1.90	\$35.00	No	Required
179	Flexible Route Selection (FRS) - 3 digit / 64 patterns	GECEC	Identifier	3 digit Routing to selectively route calls over two or more routes for a capacity of 64 patterns.		\$80.74	\$1.90	\$35.00	No	Required
180	Flexible Route Selection (FRS) - 6 digit	GECED	Identifier	Flexible Route Selection (FRS) - 6 digit		\$50.00	\$13.75	\$35.00	No	Required
181	FRS common equipment	GECEE	Identifier	FRS common equipment	Per customer group required for FRS	\$474.96	\$223.23	\$474.96	No	Required
182	FRS programming	GECEF	Identifier	FRS programming		\$200.00	\$200.00	\$200.00	No	Required
183	MDR common equipment	GECFY	Identifier	MDR common equipment	Per customer group required for Message Detail Recording (MDR).	\$100.00	\$81.25	\$100.00	No	Required
184	Message Detail Recording (MDR)	GECFX	Identifier	Provides a record of originating messages.	It is not a source for billing detail.	\$2.00	\$0.30	\$2.00	No	Required
185	Authorization Codes	GECD A	Identifier	Overrides the calling restrictions placed on a particular line.	Per group of 10.	\$14.25	\$7.60	\$30.00	No	Required
186	Code Call Access	GECD B	Identifier	Provides access to code calling signaling devices		\$100.00	\$25.00	\$30.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
187	Dictation Access Control	GE CDC	Identifier	Provides station access to dictation equipment		\$100.00	\$25.00	\$30.00	No	Required
188	Preferential Hunting	GE CDD	Identifier	Assigns hunting for an individual group of hunt group members to a pilot number of another circular hunt group.	Requires one or more hunt groups.	\$30.00	\$0.50	\$30.00	No	Required
189	Priority Queuing	GE CDE	Identifier	Provides two levels of priority in the handling of queued calls.		\$25.00	\$1.00	\$30.00	No	Required
190	Stop Hunt	GE CDF	Identifier	Uses a code to stop the hunting process when a particular line is reached in a hunting sequence.	Requires one or more hunt groups. May require additional hardware.	\$25.00	\$1.80	\$30.00	No	Required
191	Terminal Make Busy	GE CDG	Identifier	Allows a station or group of stations to appear busy to incoming calls.	Requires one or more hunt groups.	\$0.00	\$0.10	\$30.00	No	Required
192	Time of Day Routing	GE CDH	Identifier	Provides for route selection based on the most economical path for a particular time of day or day of week.		\$560.00	\$10.00	\$30.00	No	Required
193	Exchange and Toll Message Diverting - per pattern	GE CD1	Identifier	Allows establishment of toll diverting pattern by pre-selecting approved prefix (NXX) or area code (NPA) while restricting calls to all other locations.	Also need NXX and/or NPA	\$4.75	\$0.52	\$50.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
194	Exchange and Toll Message Diverting - per 10 NXX	GECDJ	Identifier	Allows establishment of toll diverting pattern by pre-selecting approved prefix while restricting calls to all other locations.	Also need per pattern.	\$195.00	\$35.00	\$50.00	No	Required
195	Exchange and Toll Message Diverting - per 10 NPA	GECDK	Identifier	Allows establishment of toll diverting pattern by pre-selecting approved area code while restricting calls to all other locations.	Also need per pattern.	\$225.00	\$50.00	\$50.00	No	Required
196	Direct Connect Service	GECDL	Identifier	Allows a station line to automatically place a call to a pre-assigned called number when the station user goes off hook		\$4.75	\$0.95	\$50.00	No	Required
197	Proprietary Interface	GECDM	Identifier	A digital network interface used to integrate digital terminal equipment with GTD-5 or DMS-100 central office switching equipment.	Each digital telephone connected to a Centrex in Verizon Territory station line requires a Proprietary Interface.	\$0.00	\$5.00	\$30.00	No	Required
198	Pseudo Number	GECDN	Identifier	A software number which has the characteristics of a basic exchange access line.		\$0.00	\$6.00	\$30.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features										
Line Item #	Feature Name	Contractor's Product Identifier	Unit of Measure	Feature Description	Feature Restrictions, Limitations and additional information	Non-Recurring Charge	Monthly Recurring Charge	Cost per Change	Delegation Needed (Yes/No)	Required or Discretionary
199	Dedicated Instant Call Accounting (ICA) per system	GECD0	Identifier	Provides the customer with records of calls originating from Centrex in Verizon Territory stations. The customer's call records are continually transmitted from the central office to the customer's premises equipment.	Requires a dedicated private line connection. Records will not be provided for incoming calls or station to station (intercom calls). Customer will be required to provide compatible CPE to process call detail records. Customer provided dial modem is required. Not available in all areas.	\$2,000.00	\$1,000.00	\$2,000.00	No	Required
200	Dial-Up ICA per system	GECDP	Identifier	The customer, using CPE, initiates a download request to the central office processor in order to retrieve the call records.	Records will not be provided for incoming calls, or station-to-station (intercom) calls. Customer will be required to provide compatible CPE to process call detail records. Customer provided dial modem is required. Not available in all areas. A Centrex Verizon line is required. To prevent possible risk of lost call	\$1,000.00	\$500.00	\$1,000.00	No	Required

					records data, Dial-Up customers need to access their call records at least every seven days					
201	Call Tracing Service	GECDQ	Identifier	Allows a customer to automatically activate a trace record of the last incoming call.	Requires CLASS package.	\$0.00	\$6.00	\$30.00	No	Required
202	VIP Alert	GECDR	Identifier	Allows a customer to program up to 12 telephone numbers of selected callers, enabling the customer to distinguish certain incoming calls from others by distinctive ringing.	If a customer also subscribes to Call Waiting, calls from the selected numbers will have a special Call Waiting tone.	\$0.00	\$4.00	\$30.00	No	Required
203	Calling Number Identification (CNID) Service - 2-25 lines	GECD S	Identifier	Provides for the display of an incoming telephone number.	Customer must provide own display device. Must be in an appropriately equipped central office.	\$5.70	\$7.12	\$30.00	No	Required
204	Calling Number Identification (CNID) Service - 26-50 lines	GECD T	Identifier	Provides for the display of an incoming telephone number.	Customer must provide own display device. Must be in an appropriately equipped central office.	\$5.70	\$7.12	\$30.00	No	Required

Table 18.2.4.1 - Central Office Exchange Services and Features

205	Calling Number Identification (CNID) Service - over 51 lines	GECDU	Identifier	Provides for the display of an incoming telephone number.	Customer must provide own display device. Must be in an appropriately equipped central office.	\$5.70	\$7.12	\$30.00	No	Required
206	Selective Blocking - Per Call	GECDV	Identifier	Provides per-call blocking in exchanges where CNID is offered.	Does not prevent delivery of number when services that utilize Automatic Number Identification (ANI) are called.	\$0.00	\$0.00	\$0.00	No	Required
207	Database Changes - Minor Software	GECDY	Identifier	Database Changes - Minor Software		\$25.00	\$0.00	\$25.00	No	Required
208	Database Changes - Routine Software	GECDX	Identifier	Database Changes - Routine Software		\$50.00	\$0.00	\$50.00	No	Required
209	Database Changes - Major Software	GECDW	Identifier	Database Changes - Major Software		\$100.00	\$0.00	\$100.00	No	Required
210	Location Code/Extension Dialing Plan: 3-25 lines	GECCA	Identifier	Utilizes a unique location code for each site along with an extension number. Individual intercom #s have two components: A 1 to 3 digit location code. 1 to 6 digits corresponding to a portion of the customer's local North American Numbering Plan #.	Extension Dialing utilizes intercom #s consisting of a portion of the # associated with the individual line. This dialing plan allows for a simple intercom number based on part of the assigned NANP number. In addition to	\$8.00	\$1.95	Location: \$65.00; 1st 25 #s: \$55.00; Add #s: \$1.00	No	Required

221	Intercom Calling: 101+ lines	GECGL	Identifier	Interlocation intercom uses the public switched network instead of a dedicated private line network to complete calls between Centrex in Verizon Territory locations.	In addition to Centrex Primary Line Station.	\$0.00	\$2.00	\$0.00	No	Required

Table 18.2.5.1 - Central Office Trunk Services and Features

Contractor's Description of Service, include required service description, features and additional features offered by Contractor: The AT&T Private Branch Exchange (PBX) trunks connect a customer's private switch or other equipment to the AT&T central office (CO).										
Geographic Availability: Throughout the AT&T California service area.										
Service Limitations and Restrictions: Subject to availability of facilities. Some features, if noted in Feature Restrictions, are available only on certain CO switch types. Switch types present in the serving Central Office for a given location can be determined by contacting AT&T or through publicly available data sources.										
The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.										
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

30	Hunting	HTG	Occurrence	Hunting. Available on Two Way and In only trunks.	Not applied to Out Dial or DID service.	\$30.00	\$0.50	\$30.00	No	Required
31	Night Terminal	NCB	Identifier	Night Terminal. If night terminal is being used, associated trunk is also busy.		\$30.00	\$2.25	\$30.00	No	Required

Table 18.2.6.1 - IntraLATA Local Calling Usage Services

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: IntraLATA usage consists of Local and Zone 3. We apply usage charges to all direct-dialed calls made over the public-switched network from business telephone lines. Local (also called Zone 1 and Zone 2) use per-minute rates										
Geographic Availability: Throughout the AT&T California service area.										
Service Limitations and Restrictions: Zone 3 is only available in zoned usage areas as defined by the California Public Utilities Commission (CPUC). The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.										
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Table 18.2.7.1 - Voice Mail Services and Features

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: A basic voicemail product that has the capability to call transfer, allow inbound call integration, provide MWI to customer's telephone handset, perform basic voicemail functionality such as listening, replying and forwarding voice messages. In addition, the customer can select to enable features which include but are not limited to wireline/wireless integration, primary voice mailbox sharing, and one repository for multiple message types such as wireline/wireless voicemail & FAX. Voicemail can be accessed & managed using a traditional telephone user interface, web browser, wireless device or email.										
Geographic Availability: Throughout the AT&T California service area.										
Service Limitations and Restrictions: Subject to availability of facilities. The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.										
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Service Limitations and Restrictions for 18.4.2.a:

- Installation of cabling for extending services from the MPOE location to the Customer's point of utilization
- Installation of cross connects or rearrangement of existing jumpers
- Identification and testing of existing cabling beyond the MPOE to the Customer's Equipment location
- Customer must provide access to facilities
- Customer to provide primary contact information on work orders
- Standard business office environment, working height is no more than 10ft in height in any area, is open and free of insulation or other obstructions, and has easily accessible drop-in panels.
- Removal and/or replacement of interlocking ceiling tiles not included
- Core drilling not included
- Backboards not included
- No special equipment is required to extend cabling (e.g. scissors lifts, extension ladder, hammer drill, concrete saw, jackhammer, etc.)
- Signal repeaters/extenders and media convertors are not included
- Cutting raised Floor tiles not included
- Material sales tax not included
- Performance bond fees not included
- Payment bond fees not included
- Permit Fees not included
- Raceways, conduits, communication poles/power poles, sleeves, surface mount channel raceways, innerduct not included
- Racks and associated hardware not included
- Scissor Lift, Man-Lift, Boom Lift not included
- Expedited shipping fees not included
- All material pricing excludes sales tax; material sales tax shall be applied at time of providing customers a quote and aligned to applicable site project addresses;
- All pricing is based upon California Prevailing Wages, prevailing wage craft, Telecommunications Technician, with exception of conduit, electrical and grounding work. Conduit, electrical and grounding work is based on prevailing wage craft Inside Wireman;
- Alterations or deviations, if any, from subsequent proposed scopes of work, or any delays or postponements of the work by the Client or it's agents which result in additional materials or labor costs will be billed at established unitized pricing. Any extra move on or off the job site due to circumstances beyond AT&T's control will be billed as an extra at hourly labor and equipment rates in effect at the time;
- Pricing is valid through original contract term;
- Client is responsible for identifying all areas containing asbestos, lead paint, and /or other hazardous materials. Client is also responsible for the removal and /or abatement of all hazardous materials and any associated costs;
- Client shall provide a suitable and safe environment for AT&T work at Client's premises. Prior to AT&T's commencement of the work proposed hereunder, Client shall advise AT&T of the presence on Client's premises of any substance or material that is classified as a hazardous material, hazardous chemical, hazardous substance, pollutant, contaminant, or toxic substance under any federal, state, or local law, regulation or ordinance ("Laws") related to the pollution or protection of air, ground or surface water, soil or other environmental media or occupational health and safety ("Hazardous Substance") or any other environmental or safety hazard. AT&T does not handle, remove, or dispose of Hazardous Substances on Client's premises;
- If, during its performance of services, AT&T's employees, subcontractors, or agents encounter a Hazardous Substance or other environmental or safety hazard, AT&T may suspend its performance until Client, at its own expense, completes the clean up and removal of the Hazardous Substance in accordance with applicable Laws or removes hazards to AT&T's

satisfaction. Client's failure to abate a Hazardous Substance or hazard within thirty (30) days of AT&T's suspension of performance pursuant to this clause shall constitute a material breach for which AT&T may terminate this contract or the applicable order. Client shall pay AT&T for any costs, expenses, fines, or penalties incurred by AT&T as a result of the presence of the Hazardous Substance or hazard and its suspension of performance;

- All items excludes X-ray and/or radar of walls and floors.
- AT&T does not warrant and / or guarantee customer's existing cable facilities nor warrant or guarantee that the customer's existing cable facilities meets performance requirements, standards compliance or compliance with national or local codes.

The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.

Service Limitations and Restrictions for 18.4.2.b:

- The hourly classifications of hours worked for services described in this response/section will be as follows:
 - Regular Hours - Hours worked between 8:00am and 4:59pm, Monday through Friday;
 - Overtime Hours - Hours worked between 5:00pm and 7:59am, Monday through Friday and all day Saturday;
 - Sunday and Holiday Hours - Any hours worked on Sunday or State of California holidays.
- All material pricing excludes sales tax; material sales tax shall be applied at time of providing customers a quote and aligned to applicable site project addresses;
- All pricing is based upon California Prevailing Wages, prevailing wage craft, Telecommunications Technician, with exception of conduit, electrical and grounding work. Conduit, electrical and grounding work is based on prevailing wage craft Inside Wireman;
- Alterations or deviations, if any, from subsequent proposed scopes of work, or any delays or postponements of the work by the Client or it's agents which result in additional materials or labor costs will be billed at established unitized pricing. Any extra move on or off the job site due to circumstances beyond AT&T's control will be billed as an extra at hourly labor and equipment rates in effect at the time;
- Pricing is valid through original contract term;
- Client is responsible for identifying all areas containing asbestos, lead paint, and /or other hazardous materials. Client is also responsible for the removal and /or abatement of all hazardous materials and any associated costs;
- Client shall provide a suitable and safe environment for AT&T work at Client's premises. Prior to AT&T's commencement of the work proposed hereunder, Client shall advise AT&T of the presence on Client's premises of any substance or material that is classified as a hazardous material, hazardous chemical, hazardous substance, pollutant, contaminant, or toxic substance under any federal, state, or local law, regulation or ordinance ("Laws") related to the pollution or protection of air, ground or surface water, soil or other environmental media or occupational health and safety ("Hazardous Substance") or any other environmental or safety hazard. AT&T does not handle, remove, or dispose of Hazardous Substances on Client's premises;
- If, during its performance of services, AT&T's employees, subcontractors, or agents encounter a Hazardous Substance or other environmental or safety hazard, AT&T may suspend its performance until Client, at its own expense, completes the clean up and removal of the Hazardous Substance in accordance with applicable Laws or removes hazards to AT&T's satisfaction. Client's failure to abate a Hazardous Substance or hazard within thirty (30) days of AT&T's suspension of performance pursuant to this clause shall constitute a material breach for which AT&T may terminate this contract or the applicable order. Client shall pay AT&T for any costs, expenses, fines, or penalties incurred by AT&T as a result of the presence of the Hazardous Substance or hazard and its suspension of performance;
- All items excludes X-ray and/or radar of walls and floors.
- AT&T does not warrant and / or guarantee customer's existing cable facilities nor warrant or guarantee that the customer's existing cable facilities meets performance requirements, standards compliance or compliance with national or local codes.

The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.

State Associated Administrative Fee (SAAF):

All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Service Limitations and Restrictions:

- The hourly classifications of hours worked for services described in this response/section will be as follows:
 - Regular Hours - Hours worked between 8:00am and 4:59pm, Monday through Friday;
 - Overtime Hours - Hours worked between 5:00pm and 7:59am, Monday through Friday and all day Saturday;
 - Sunday and Holiday Hours - Any hours worked on Sunday or State of California holidays.
- All material pricing excludes sales tax; material sales tax shall be applied at time of providing customers a quote and aligned to applicable site project addresses;
- All pricing is based upon California Prevailing Wages, prevailing wage craft, Telecommunications Technician, with exception of conduit, electrical and grounding work. Conduit, electrical and grounding work is based on prevailing wage craft Inside Wireman;
- Alterations or deviations, if any, from subsequent proposed scopes of work, or any delays or postponements of the work by the Client or it's agents which result in additional materials or labor costs will be billed at established unitized pricing. Any extra move on or off the job site due to circumstances beyond AT&T's control will be billed as an extra at hourly labor and equipment rates in effect at the time;
- Pricing is valid through original contract term;
- Client is responsible for identifying all areas containing asbestos, lead paint, and /or other hazardous materials. Client is also responsible for the removal and /or abatement of all hazardous materials and any associated costs;
- Client shall provide a suitable and safe environment for AT&T work at Client's premises. Prior to AT&T's commencement of the work proposed hereunder, Client shall advise AT&T of the presence on Client's premises of any substance or material that is classified as a hazardous material, hazardous chemical, hazardous substance, pollutant, contaminant, or toxic substance under any federal, state, or local law, regulation or ordinance ("Laws") related to the pollution or protection of air, ground or surface water, soil or other environmental media or occupational health and safety ("Hazardous Substance") or any other environmental or safety hazard. AT&T does not handle, remove, or dispose of Hazardous Substances on Client's premises;
- If, during its performance of services, AT&T's employees, subcontractors, or agents encounter a Hazardous Substance or other environmental or safety hazard, AT&T may suspend its performance until Client, at its own expense, completes the clean up and removal of the Hazardous Substance in accordance with applicable Laws or removes hazards to AT&T's satisfaction. Client's failure to abate a Hazardous Substance or hazard within thirty (30) days of AT&T's suspension of performance pursuant to this clause shall constitute a material breach for which AT&T may terminate this contract or the applicable order. Client shall pay AT&T for any costs, expenses, fines, or penalties incurred by AT&T as a result of the presence of the Hazardous Substance or hazard and its suspension of performance;
- All items excludes X-ray and/or radar of walls and floors.

AT&T does not warrant and / or guarantee customer's existing cable facilities nor warrant or guarantee that the customer's existing cable facilities meets performance requirements, standards compliance or compliance with national or local codes.

The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.

State Associated Administrative Fee (SAAF):

All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.

Table 18.4.5 - Services Related Hourly Support

Contractor's Description of Service, include required service description, features and additional features offered by the Contractor: Work performed under this Section is authorized only for situations where the Contractor has dispatched personnel to diagnose a service problem that turns out to be caused by factors outside the responsibility of the Contractor (e.g., Network Interface Units/ circuit terminations, etc.) AT&T shall provide a fixed hourly rate schedule for labor classifications common to the diagnosis of contracted services. The rates identified shall only be used for the diagnosis of contracted services and no materials shall be provided.										
Geographic Availability: US Domestic										
Service Limitations and Restrictions: None										
The services within this catalog will expire June 30, 2027, and no replacement contract is currently available. Customers should make plans for alternative solutions to replace their Legacy telecommunications.										
State Associated Administrative Fee (SAAF): All services in this catalog will have a 2% fee applied. Charges below do not include the SAAF. The SAAF will appear as a separate line on the customer's invoice.
